Crosbie, 1995 Presents photographs of animal sculptures and architectural details accompanied by limericks *Preserving Historic Landscapes*, 1990 **Wild Mammals in Captivity** Devra G. Kleiman, Katerina V. Thompson, Charlotte Kirk Baer, 2010-08-15 Zoos aquaria and wildlife parks are vital centers of animal conservation and management For nearly fifteen years these institutions have relied on *Wild Mammals in Captivity* as the essential reference for their work Now the book reemerges in a completely updated second edition *Wild Mammals in Captivity* presents the most current thinking and practice in the care and management of wild mammals in zoos and other institutions In one comprehensive volume the editors have gathered the most current information from studies of animal behavior advances in captive breeding research in physiology genetics and nutrition and new thinking in animal management and welfare In this edition more than three quarters of the text is new and information from more than seventy five contributors is thoroughly updated The standard text for all courses in zoo biology *Wild Mammals in Captivity* will in its new incarnation continue to be used by zoo managers animal caretakers researchers and anyone with an interest in how to manage animals in captive conditions **Historic Preservation**, 1996 *The SAGE Handbook of Architectural Theory* C. Greig Crysler, Stephen Cairns, Hilde Heynen, 2012-01-20 Offers an intense scholarly experience in its comprehensiveness its variety of voices and its formal organization the editors took a risk experimented and have delivered a much needed resource that upends the status quo *Architectural Histories* journal of the European Architectural History Network Architectural theory interweaves interdisciplinary understandings with different practices intentions and ways of knowing This handbook provides a lucid and comprehensive introduction to this challenging and shifting terrain and will be of great interest to students academics and practitioners alike Professor Iain Borden UCL Bartlett School of Architecture In this collection architectural theory expands outward to interact with adjacent discourses such as sustainability conservation spatial practices virtual technologies and more We have in *The Handbook of Architectural Theory* an example of the extreme generosity of architectural theory It is a volume that designers and scholars of many stripes will welcome K Michael Hays Eliot Noyes Professor of Architectural Theory Harvard University *The SAGE Handbook of Architectural Theory* documents and builds upon the most innovative

developments in architectural theory over the last two decades Bringing into dialogue a range of geographically institutionally and historically competing positions it examines and explores parallel debates in related fields The book is divided into eight sections Power Difference Embodiment Aesthetics Pleasure Excess Nation World Spectacle History Memory Tradition Design Production Practice Science Technology Virtuality Nature Ecology Sustainability City Metropolis Territory Creating openings for future lines of inquiry and establishing the basis for new directions for education research and practice the book is organized around specific case studies to provide a critical interpretive and speculative enquiry into the relevant debates in architectural theory **Architectural Publications Index** ,2003 Political Animals Jesse Donahue,Erik Trump,2007-01-01 Political Animals offers a unique study and perspective on the relationship between politics and the art found in American zoos and aquariums Jesse Donahue and Erik Trump examine the ways that zoos and aquariums have successfully served as sculptural gardens for the masses and have incorporated art and architecture that convey political messages about both the patrons and the animals This book demonstrates how art has been used for a range of economic and political purposes including providing jobs a medium to reach out to minority interest groups a fundraising tool and a surrogate for the animals themselves Donahue and Trump skillfully analyze and compare zoos to other areas of public art to highlight the calculated strategies on the part of the zoos that have incorporated a range of artistic styles for different audiences Incorporating photographs of zoo and aquarium art from around the country Political Animals is an exciting and captivating text for the mind and eye *The Routledge Companion to Environmental Ethics* Benjamin Hale,Andrew Light,Lydia Lawhon,2022-07-29 Written for a wide range of readers in environmental science philosophy and policy oriented programs The Routledge Companion to Environmental Ethics is a landmark comprehensive reference work in this interdisciplinary field Not merely a review of theoretical approaches to the ethics of the environment the Companion focuses on specific environmental problems and other concrete issues Its 65 chapters all appearing in print here for the first time have been organized into the following eleven parts I Animals II Land III Water IV Climate V Energy and Extraction VI Cities VII Agriculture VIII Environmental Transformation IX Policy Frameworks and Response Measures X Regulatory Tools XI Advocacy and Activism The volume not only explains the nuances of important core philosophical positions but also cuts new pathways for the integration of important ethical and policy issues into environmental philosophy It will be of immense help to undergraduate students and other readers coming up to the field for the first time but also serve as a valuable resource for more advanced students as well as researchers who need a trusted resource that also offers fresh policy centered approaches

Hermeneutics of Human-Animal Relations in the Wake of Rewilding Mateusz Tokarski,2019-05-21 In consequence of significant social political economic and demographic changes several wildlife species are currently growing in numbers and recolonizing Europe While this is rightly hailed as a success of the environmental movement the return of wildlife brings its own issues As the animals arrive in the places we inhabit we are learning anew that life with wild nature is not easy

especially when the accumulated cultural knowledge and experience pertaining to such coexistence have been all but lost. This book provides a hermeneutic study of the ways we come to understand the troubling impacts of wildlife by exploring and critically discussing the meanings of ecological discomforts. Thus it begins the work of rebuilding the culture of coexistence. The cases presented in this book range from crocodile attacks to mice infestations and their analysis consequently builds up an ethics that sees wildlife as active participants in the shaping of human moral and existential reality. This book is of interest not only to environmental philosophers who will find here an original contribution to the established ethical discussions but also to wildlife managers and even to those members of the public who themselves struggle to make sense of encounters with their new wild neighbors.
