Birdscapes Birds In Our Imagination And Experience:

Birdscapes Jeremy Mynott, 2021-10-12 What draws us to the beauty of a peacock the flight of an eagle or the song of a nightingale Why are birds so significant in our lives and our sense of the world And what do our ways of thinking about and experiencing birds tell us about ourselves **Birdscapes** is a unique meditation on the variety of human responses to birds from antiquity to today and from casual observers to the globe trotting twitchers who sometimes risk life limb and marriages simply to add new species to their life lists Drawing extensively on literature history philosophy and science Jeremy Mynott puts his own experiences as a birdwatcher in a rich cultural context His sources range from the familiar Thoreau Keats Darwin and Audubon to the unexpected Benjamin Franklin Giacomo Puccini Oscar Wilde and Monty Python Just as unusual are the extensive illustrations which explore our perceptions and representations of birds through images such as national emblems women's hats professional sports logos and a Christmas biscuit tin as well as classics of bird art Each chapter takes up a new theme from rarity beauty and sound to conservation naming and symbolism and is set in a new place as Mynott travels from his home patch in Suffolk England to his away patch in New York City's Central Park as well as to Russia Australia and Greece Conversational playful and witty **Birdscapes** gently leads us to reflect on large questions about our relation to birds and the natural world It encourages birders to see their pursuits in a broader human context and it shows nonbirders what they may be missing

The Beauty of Birds Jeremy Mynott, 2012-05-06 Spring returns and with it the birds But it also brings throngs of birders who emerge binoculars in hand to catch a glimpse of a rare or previously unseen species or to simply lay eyes on a particularly fine specimen of a familiar type In a delightful meditation that unexpectedly ranges from the Volga Delta to Central Park and from Charles Dickens's *Hard Times* to a 1940s London burlesque show Jeremy Mynott ponders what makes birds so beautiful and alluring to so many people **Princeton Shorts** are brief selections taken from influential Princeton University Press books and produced exclusively in ebook format Providing unmatched insight into important contemporary issues or timeless passages from classic works of the past **Princeton Shorts** enable you to be an instant expert in a world where information is everywhere but quality is at a premium

Flight Calls John R. Nelson, 2020-01-15 The paths of different birds look like double helixes flowing strands of hair and migrating serpents and they beckon with calls that have definite meanings These mysterious creatures inspire growing numbers of birders in their passionate pursuit of new species and writer John R Nelson is no exception In *Flight Calls* he takes readers on explorations to watch hear and know Massachusetts's hummingbirds hawks and herons along the coasts and in the woodlands meadows and marshes of Cape Ann Cape Cod the Great Marsh Mount Auburn Cemetery the Quabbin wilderness Mount Wachusett and elsewhere With style humor and a sense of wonder Nelson blends his field adventures with a history of the birding community natural and cultural history bird stories from authors such as Henry David Thoreau Emily Dickinson and Mary Oliver current scientific research and observations about the fascinating habits of birds and their admirers These essays are
