Jerry Aline Flieger, 2005-05-06 Psychoanalysis as a navigation device for the cultural maze of the twenty first century Can Freud be updated in the twenty first century or is he a venerated but outmoded genius asks Jerry Aline Flieger In Is Oedipus Online Flieger stages an encounter between psychoanalysis and the new century testing the viability of Freud s theories in light of the emergent realities of our time Responding to prominent critics of psychoanalysis and approaching our current preoccupations from a Freudian angle she presents a reading of Freudian theory that coincides with and even clarifies new concepts in science and

culture Fractals emergence topological modeling and other nonlinearities for example can be understood in light of both Freud's idea of the symptom as a nodal point and Lacan's concept of networks rather than sequential cause and effect that link psychic realities At the same time Flieger suggests how emerging paradigms in science and culture may elucidate Freud's cultural theory Like Slavoj Žižek editor of the Short Circuits series Flieger shifts effortlessly from field to field discussing psychoanalysis millennial culture nonlinear science and the landscape of cyberspace In the first half of the book *Re-siting Oedipus* she draws on the work of Lyotard Žižek Deleuze Virilio Baudrillard Haraway and others to refute the assumption of Freud's outdatedness in the new century Then in *Freud Sitings in Millennial Theory* she recasts oedipal theory siting sighting citing Freud in a twenty first century context Thinking of Oedipus decipherer of enigmas wanderer as a navigator or search engine allows us to see psychoanalysis as a navigation device for the cultural maze of the bimillennial era and Oedipus himself as a circuit of intersubjective processes by which we become human For humanity still needed in the posthuman century is at the core of Freud's theory Reading Freud today Flieger writes reminds us of the complications of the Sphinx's riddle the enigma that Oedipus only thought he solved the question of what it is to be human Psychoanalysis continues to pose that question at the crossroads between instincts and their vicissitudes

Legend-Tripping Online Michael Kinsella, 2011-05-17 On the Internet seekers investigate anonymous manifestos that focus on the findings of brilliant scientists said to have discovered pathways into alternate realities Gathering on web forums researchers not only share their observations but also report having anomalous experiences which they believe come from their online involvement with these veiled documents Seeming logic combines with wild twists of lost Moorish science and pseudo string theory Enthusiasts insist any obstacle to revelation is a sure sign of great and wide reaching efforts by consensus powers wishing to suppress all the liberating truths in the Incunabula Papers included here in complete form In *Legend Tripping Online* Michael Kinsella explores these and other extraordinary pursuits This is the first book dedicated to legend tripping ritual quests in which people strive to explore and find manifest the very events described by supernatural legends Through collective performances legend trippers harness the interpretive frameworks these stories provide and often claim incredible out of this world experiences that in turn perpetuate supernatural legends Legends and legend tripping are assuming tremendous prominence in a world confronting new speeds of diversification connection and increasing cognitive load As guardians of tradition as well as agents of change legends and the ordeals they inspire contextualize ancient and emergent ideas behaviors and technologies that challenge familiar realities This book analyzes supernatural legends and the ways in which the sharing spirit of the internet collectivizes codifies and makes folklore of fantastic speculation

Comics and Language Hannah Miodrag, 2013-07-29 It has become an axiom in comic studies that comics is a language not a genre But what exactly does that mean and how is discourse on the form both aided and hindered by thinking of it in linguistic terms In *Comics and Language* Hannah Miodrag challenges many of the key assumptions about the grammar and formal characteristics of comics

and offers a more nuanced theoretical framework that she argues will better serve the field by offering a consistent means for communicating critical theory in the scholarship Through engaging close readings and an accessible use of theory this book exposes the problems embedded in the ways critics have used ideas of language literature structuralism and semiotics and sets out a new and more theoretically sound way of understanding how comics communicate Comics and Language argues against the critical tendency to flatten the distinctions between language and images and to discuss literature purely in terms of story content It closely examines the original critical theories that such arguments purport to draw on and shows how they in fact point away from the conclusions they are commonly used to prove The book improves the use the field makes of existing scholarly disciplines and furthers the ongoing sophistication of the field It provides animated and insightful analyses of a range of different texts and takes an interdisciplinary approach Comics and Language will appeal to the general comics reader and will prove crucial for specialized scholars in the fields of comics literature cultural studies art history and visual studies It also provides a valuable summary of the current state of formalist criticism within comics studies and so presents the ideal text for those interested in exploring this growing area of research *HCA Comics Dallas Signature Auction Catalog #823* Ivy Press,2006-12
