Angels Selected Lectures:

Angels Rudolf Steiner, 2013-04-02 Religious and spiritual writings have always made reference to beings from the spiritual hierarchies especially those known in Christian tradition as Angels These spirits are the closest to human beings and act as our invisible guides and companions They influence the life of the individual as well as the evolution of humanity and the cosmos From his own clairvoyant vision Rudolf Steiner confirmed the existence of such spiritual beings and showed how modern minds could gain access to their world As he explains in these inspiring lectures it is important for us to understand and cooperate with the work of the Angels today as this is crucial for the further development of humanity **Guardian**

Angels Rudolf Steiner, 2013-04-16 Throughout the ages traditional folklore has spoken of guardian angels as spirits who guide and protect human beings In modern times however their existence has largely been written off as myth and superstition Based on his personal experience and cognition Rudolf Steiner speaks of guardian angels and other spiritual beings as a reality Their existence he says is a spiritual and scientific fact which can be fruitfully researched and studied through clairvoyant means Furthermore working consciously with these entities can assist each of us in fulfilling our evolutionary goals In these six specially selected lectures Rudolf Steiner elucidates the role of the guardian angel and also discusses our relationship to the heavenly hierarchies of spiritual beings as a whole and how they shape our human form as a result of their cosmic activity **The Ancient Tradition of Angels** Normandi Ellis, 2023-03-07 An in depth study into the

mystery and purpose of angels Explains that angels are beings of light consciousness here to help our individual and planetary cosmic evolution Explores angels from Judeo Christian and Islamic faiths Hinduism and Buddhism the beliefs of ancient Egypt Yezidism and Zoroastrianism as well as what Theosophists Kabbalists Sufi masters Eastern gurus and modern mystics like Edgar Cayce have recounted about angels Examines contemporary angelic encounters including the author's own interactions with angels and also looks at the purpose of dark angels and fallen angels From the divine messengers of Western traditions to the devas of Eastern traditions to the meleks and spirit beings found along the Silk Road angels are one of the unifying themes of theology worldwide But what is an angel and why do they contact us believers and nonbelievers alike In this in depth study into the mystery and purpose of angels Normandi Ellis looks at the angelic dimensions of spiritual traditions around the world from the ancient past to present day She explores well known angels from Judeo Christian and Islamic faiths the Hindu devata and Buddhist spirit beings the spirit beings of ancient Egypt the Peacock Angel of Yezidism and the yazatas of Zoroastrianism She compares angelic visions from medieval Christians like Thomas Aquinas and John of Damascus with what Theosophists kabbalists Sufi masters Eastern gurus and modern mystics like Edgar Cayce have recounted about angels She looks at dark and fallen angels and their role in the grand cosmological plan Quoting from sacred traditions narrative myth and contemporary angelic encounters including her own personal interactions with angels the author clarifies the divergent aspects of angelic beliefs but also reveals the common points shared by all traditions Ellis

shows how in whatever guise they appear angels are messengers She explains that angels are beings of light consciousness part of the universal life force that connects all beings And not only are angels actively helping in our planet s cosmic evolution they also help us see our own place in the cosmic plan

Steiner,2013-05-09 Today we face an increasing number of challenges connected to our environment from climate change and extreme weather patterns to deforestation threats to animal species and ongoing crises in farming Hardly a day goes by without further alarming reports How are we to respond particularly if we wish to take a broader spiritual view of these events Today we face an increasing number of challenges connected to our environment from climate change and extreme weather patterns to deforestation threats to animal species and ongoing crises in farming Hardly a day goes by without further alarming reports How are we to respond particularly if we wish to take a broader spiritual view of these events In the extracts compiled in this volume presented here with commentary and notes by Matthew Barton Steiner speaks about human perception the earth water plants animals insects agriculture and natural catastrophes Spiritual Ecology offers a wealth of original thought and spiritual insight for anyone who cares about the future of the earth and humanity **Life Beyond Death** Rudolf Steiner,2015-03-05 Although western humanity has conquered the outer world with the aid of technology and science death remains an unsolved and largely unexplored mystery Rudolf Steiner an exceptional seer was able to research spiritually the question of what happens to human consciousness after the physical body passes away In these remarkably matter of fact lectures he affirms that life continues beyond death Far from being dissipated the individual s consciousness awakens to a new reality beginning a great journey to the farthest expanses of the cosmos Here it embarks on a process of purification and preparation Rudolf Steiner indicates that one of the most important tasks for our present civilization is the reestablishment of living connections with those who have died He gives suggestions as to how this can be done safely and describes how the dead can be of help to those on earth
