Hartlep,Breyden V. Stanton,2022-10-01 Stories From Berea College Opportunities of Attending a Work College was born during the Omicron surge of the COVID 19 pandemic While it is uncertain what the pandemic will hold one thing is for certain this book will stand the test of time Work Colleges do not receive the scholarly attention they ought to and the student authors would like to think they fought for a little more attention by writing this book Work Colleges are indeed institutions of higher learning where students earn while they learn but also learn through hard work This book is comprised of chapters written by students who discuss the magic Berea College holds for personal growth opportunity and life changing experiences *Short Stories for Teen Girls* Grace Parker,2025-10-09 Your daughter is crying in her room again She won't tell you why She says you wouldn't understand And when you try to help she shuts down You've tried talking You've tried advice You've tried everything you can think of Nothing's working The Real Problem It's not that she doesn't want help It's that she doesn't want to be told what to do She needs to see it for herself Through someone her age In situations that feel real That's exactly what these stories do What Happens When She Reads This Instead of another lecture about confidence She reads about Maya who chose popularity over authenticity and felt emptier than ever She sees what happened She connects the dots herself Instead of you explaining why comparison is toxic She meets Lily scrolling through Instagram at 2 AM watching everyone's highlight reel while her own life feels like a blooper reel She recognizes herself in those pages Instead of being told to trust her instincts She follows Emma who ignored every red flag because a popular guy liked her She learns why that voice inside matters without you having to say a word The lesson lands because she discovered it Not because someone told her Here's What She'll Actually Learn Week 1 She'll start noticing which friends show up when things get hard and which ones disappear Week 2 She'll catch herself before posting that carefully filtered photo wondering if the likes are worth the anxiety Week 3 She'll remember the story about small choices when she's deciding whether to hit snooze or get up and face the day Month 3 You'll have a real conversation Not because you pushed Because a story opened the door What's Inside Stories about the stuff that keeps her up at night The friend who betrayed her trust and what it teaches about who deserves her loyalty The pressure to look perfect and why the girl who stopped trying actually felt better The voice that says she's not

good enough and how to tell when it's lying The mistake she can't stop thinking about and what it means when failure becomes the lesson The choice between what she wants and what's right and how to know which path to take Plus situations about family drama toxic relationships body image academic pressure and every other challenge that makes teenage life feel impossible Each story shows a girl working through it Making mistakes Learning Growing No lectures No perfect answers Just real people figuring it out Two Ways This Helps For her A mirror that reflects her struggles back to her with stories that say you're not the only one louder than any advice ever could For you A bridge Something you can both read and talk about without it feeling like another parent-teen battlefield Perfect For Teenage girls 13-18 who feel misunderstood overwhelmed or stuck Parents searching for a way in when every door seems closed Aunts godmothers teachers counselors looking for a gift that actually matters Anyone who remembers how brutal those years were and wants to help someone through them One of these stories might be exactly what she needs to hear right now

ADHD Does not Exist Richard Saul, 2014-02-18 In this groundbreaking and controversial book behavioral neurologist Dr Richard Saul draws on five decades of experience treating thousands of patients labeled with Attention Deficit and Hyperactivity Disorder one of the fastest growing and widely diagnosed conditions today to argue that ADHD is actually a cluster of symptoms stemming from over 20 other conditions and disorders According to recent data from the Centers for Disease Control and Prevention an estimated 6.4 million children between the ages of four and seventeen have been diagnosed with attention deficit hyperactivity disorder While many skeptics believe that ADHD is a fabrication of drug companies and the medical establishment the symptoms of attention deficit and hyperactivity are all too real for millions of individuals who often cannot function without treatment If ADHD does not exist then what is causing these debilitating symptoms Over the course of half a century physician Richard Saul has worked with thousands of patients demonstrating symptoms of ADHD Based on his experience he offers a shocking conclusion ADHD is not a condition on its own but rather a symptom complex caused by over twenty separate conditions from poor eyesight and giftedness to bipolar disorder and depression each requiring its own specific treatment Drawing on in-depth scientific research and real-life stories from his numerous patients ADHD Does not Exist synthesizes Dr Saul's findings and offers clear advice for everyone seeking answers
