The Allocation of Regulatory Competence in the EU Emissions Trading Scheme Josephine A. W. van Zeben, 2014-04-17 Analysis of the law and politics of regulatory competence allocation in the European Union Emissions Trading Scheme

Decentralization and Governance Capacity Evrim Tan, 2018-11-27 It is widely assumed that the relationship between governance capacity and decentralization determines the success in governance but how does this relationship function is largely contested Does decentralization lead to an improvement in governance capacities or are certain capacities preconditioned in order for decentralization to lead better governance Relying on an empirical study of Turkish provincial municipalities the book argues success in decentralization is strongly influenced by the socioeconomic conditions in the province and to a lesser extent by the local government's capacity The book provides a novel approach to capacity building practices and decentralization reforms by suggesting that the relationship between decentralization and governance capacity should be addressed not only on the organizational but also on the developmental level In this way the book proposes asymmetrical decentralization according to socio economic development at subnational level for better governance outcomes
