Author Unknown Don Foster, 2001-10-01 From the professor with an extraordinary gift for unmasking the authors of anonymous documents comes the inside story of how he solves his most challenging cases In Author Unknown Don Foster reveals a startling fact since no two people use language in precisely the same way our identities are encoded in our own language a kind of literary DNA Combining traditional scholarship with modern technology Foster has discovered how to unlock that code and in the process has invented an entire field of investigation literary forensics by which it becomes possible to catch anonymous authors as they ultimately betray their identities with their own words Foster s unique skills first came to light when a front page New York Times article announced his discovery that a previously unattributed poem was written by Shakespeare A few weeks later Foster solved the mystery that had obsessed America for months when he identified Joe Klein as the author of Primary Colors Foster also took on the case of an oddball California bag lady who many believed to be the elusive Thomas Pynchon His contributions to the Unabomber case takes us inside the tangled mind of Ted Kaczynski And in the final chapter Foster makes a surprising and heartening discovery about a beloved holiday icon As entertaining as it is eye opening Author Unknown shows us how Don Foster uses his unusual methods to search out the hidden identities behind anonymous documents of all kinds Anyone who reads this remarkable book will find it impossible to read or write in the same way as before

Bunk Kevin Young, 2017-11-14 Longlisted for the National Book Award for Nonfiction There Kevin Young goes again giving us books we greatly need cleverly disguised as books we merely want Unexpectedly essential Marlon James Award winning poet and critic Kevin Young tours us through a rogue's gallery of hoaxers plagiarists forgers and fakers from the humbug of P T Barnum and Edgar Allan Poe to the unrepentant bunk of JT LeRoy and Donald J Trump Bunk traces the history of the hoax as a peculiarly American phenomenon examining what motivates hucksters and makes the rest of us so gullible Disturbingly Young finds that fakery is woven from stereotype and suspicion race being the most insidious American hoax of all He chronicles how Barnum came to fame by displaying figures like Joice Heth a black woman whom he pretended was the 161 year old nursemaid to George Washington and What Is It an African American man Barnum professed was a newly discovered missing link in evolution Bunk then turns to the hoaxing of history and the ways that forgers plagiarists and journalistic fakers invent backstories and falsehoods to sell us lies about themselves and about the world in our own time from pretend Native Americans Grey Owl and Nasdijj to the deadly imposture of Clark Rockefeller from the made up memoirs of James Frey to the identity theft of Rachel Dolezal In this

The Santa Claus Man Alex Palmer, 2015-10-01 The true story of John Duval Gluck Jr who in 1913 founded the Santa Claus Association which had the sole authority to answer Santa's mail in New York City. He ran the organization for 15 years gaining fame for making the myth of Santa a reality to poor children by arranging for donors to deliver the toys they requested until a crusading charity commissioner exposed Gluck as a fraud. The story is wide in scope interweaving a phony Boy Scout group kidnapping stolen artwork and appearances by the era's biggest stars and New York City's most famous landmarks. The book is both a personal story and a far-reaching historical one tracing the history of Christmas celebration in America and the invention of Santa Claus.

Language and Mathematics Marcel Danesi, 2016-06-06 This book explores the many disciplinary and theoretical links between language, linguistics and mathematics. It examines trends in linguistics such as structuralism, conceptual metaphor theory and other relevant theories to show that language and mathematics have a similar structure but differential functions even though one without the other would not exist.
