Lat Pulldown Attachment

Step 8:

Replace Bench. Insert Cables through the Pulleys and attach the end of Cable, without the Rubber Stop, to the regular Bowflex Cable by removing Hand Grips and using Snap Hooks to attach the loop end of the Cable. Do this on both sides. Hook up the 30 pound Power Rods on each side at this time.

Locate the Long Bar. Attach the Long Bar to the cables by hanging them from the Lat Pulldown Attachment with the supplied Snap Hooks.

IMPORTANT!

Place Lat Bar in Brackets when not in use.

Note: With the addition of your new lat tower, the angle of your bench at incline is slightly different. This will not change the effectiveness of the exercises.

You will note that your bench now rests against the lat tower support block and not on the incline support bracket. This is normal.

Slide Cables into the tube beneath the "T" piece when not using the lat tower.

Power of 10 Adam Zickerman,Bill Schley,2024-04-16 Fitness expert Adam Zickerman presents a revolutionary exercise program slow strength training that will forever change the way Americans work out Power of 10 seems to contradict nearly everything we re accustomed to hearing about exercise Forget hours on the treadmill and forget daily visits to the gym Power of 10 is based on a remarkably advanced yet simple discovery By lifting weights in a series of ultra slow movements that last 10 seconds each you can stimulate lean muscle formation far more

efficiently and safely than regular weight lifting or aerobics Together with a healthy nutrition plan Power of 10 is so powerfully effective that as little as one 20 minute workout per week is enough to build muscle burn fat and improve cardiovascular health at any age The Complete Guide to Functional Training Allan Collins,2012-06-21 As well as being the concept in fitness and strength and conditioning functional training is also probably the most poorly understood concept in fitness Functional training is any exercise that improves your ability to perform tasks required in your day to day life job or chosen sport so that each movement included as part of your workout mimics a range of motion or engages muscles that are necessary to impact on performance whether it be on the rugby pitch or simply the ability to lift small children out of car seats Includes over 100 functional exercises and detailed pictures and descriptions of all the techniques show you clearly how to apply them into your training programme Pull-ups: from DUD to STUD within a matter of WEEKS! Rahul Mookerjee,2017-11-15 If you re reading this chances are good you know what it feels like not to be able to do ONE single pull up at this point in time In fact chances are that even hanging on to the pull up bar for any length of time is an exercise in futility for you and I can understand this predicament The average Joe today can barely hold on to a chinning bar for more than a few seconds before having to let go let alone pound out rep after perfect rep on the much feared admired PULL UP or chin up If you re the guy that could barely pump out one pull up in high school where the rest of the kids pumped em out AD INFINITUM well not to worry THIS course will get you cranking em out IN NO TIME FLAT But why just the average person my friend Most gym goers these days are unable to pump out pull ups in proper form and the right cadence That guy with the bulging lats might be able to crank out heavy poundage s on the lat pull down machine but position him at the pull up station and he ll likely not even be able to do a single one See that guy with the huge biceps repping out endless sets of dumbbell curls Bring him over to the pull up station and chances are he won t be able to hang onto the bar for any length of time let alone pump out high reps And that s not good Not good at all because pull ups are one of the best if not THE best upper body exercises you can do period Along with the dip another super exercise the pull up has often being referred to either as the king of upper body exercises or the upper body equivalent of the squat which is an expression I prefer to reserve for the dip but it can be used for pull ups as well Pull ups are also a natural form of exercise in fact our bodies were MEANT to perform such exercises Think about it for a minute which is the animal in the wild that humans most resemble in terms of body structure Apes and what do apes and monkeys do all day long Peform various types of pulling movements with their bodyweight and just how STRONG is an ape Well the average gorilla is reputed to have the strength of EIGHT strong men perhaps more when aroused It has been said that a chimpanzee is strong enough to kill a 1000 kg crocodile with it s bare hands And that s just off the top of my head now thats some SERIOUS strength there doncha think Could the average bloated bodybuilder with bulging muscles even come close Follow the way of the APE order NOW and get cracking on dem pullups I look forward to hearing back about your pull up MASTERY Best Rahul Mookerjee
