Brainwashed Brainwashed:

Brainwashed Daniel Pick, 2022-07-07 A frankly brilliant book GUARDIAN An absorbing exploration Pick does not stumble TORTOISE An extraordinarily engrossing and wide ranging analysis of a word and a concept I fell under its spell immediately SIMON GARFIELD In 1953 a group of prisoners of war who had fought against the communist invasion of South Korea were released They chose apparently freely to move to Mao's China Among those refusing repatriation were twenty one American GIs Their decision sparked alarm in the West why didn't they want to come home What was going on Soon people were saying that the POWs had been brainwashed Was this something new or a phenomenon that has been around for centuries The belief that it is possible to marshal scientific knowledge to govern someone's mind gained enormous attention In an era of Cold War paranoia and experimentation on altered states the idea of brainwashing flourished appearing in everything from critiques of CIA research on LSD to warnings of corporate groupthink from visions of automaton assassins to conspiracy theories about global elites Today brainwashing is almost taken for granted built into our psychological and political language rooted in the way we think about minds and societies How did we get to this point and why Psychoanalyst and historian Daniel Pick delves into the mysterious world of brainwashing in the twentieth and twenty first centuries from The Manchurian Candidate to ISIS TV advertising to online algorithms Mixing fascinating case studies with historical and psychological insights Brainwashed is a stimulating journey into the mysteries of thought control *Brainwash* Dominic Streatfeild, 2024-05-01 Vivid and disturbing Brainwash is essential insight into the modern practice of interrogation and torture from the acclaimed author of Cocaine With access to formerly classified documentation and interviews from the CIA US Army MI5 MI6 and British Intelligence Corps Dominic Streatfeild traces the evolution of mind control from its origins in the Cold War to the height of today's war on terror Behind the front lines of every war in the world prisoners are forced to sit for interrogation manipulated coerced and sometimes tortured often without ever being touched Brainwash is a history of the methods intended to destroy and reconstruct the minds of captives to extract information convert dissidents and lead peaceful men to kill and be killed A gripping survey of the post war history of interrogation techniques Telegraph on Sunday UK Breathless reads like a spy thriller The Guardian UK Marvelously engrossing This book is a series of wonderfully detailed and cleverly told stories each of which debunks the brainwashing myth Streatfeild's narrative control cannot be faulted His research is formidable The Sunday Times UK An expansive and multifaceted exploration of brainwashing in its multitude of forms Booklist *Brainwashing* Kathleen Taylor, 2016-12-29 Throughout history humans have attempted to influence and control the thoughts of others Since the word brainwashing was coined in the aftermath of the Korean War it has become part of the popular culture and been exploited to create sensational headlines It has also been the subject of learned discussion from many disciplines including history sociology psychology and psychotherapy But until now a crucial part of the debate has been missing that of any serious reference to the science of the human brain Descriptions of how opinions can

be changed whether by persuasion deceit or force have been almost entirely psychological In Brainwashing Kathleen Taylor brought the worlds of neuroscience and social psychology together for the first time In elegant and accessible prose and with abundant use of anecdotes and case studies she examines the ethical problems involved in carrying out the required experiments on humans the limitations of animal models and the frightening implications of such research She also explores the history of thought control and shows how it persists all around us from marketing and television to politics and education This edition includes a new preface from the author reflecting on the uses of brainwashing today including by the Islamic State Oxford Landmark Science books are must read classics of modern science writing which have crystallized big ideas and shaped the way we think **Brainwashing** David Seed,2004 An examination of the literary and cinematic representations of brainwashing during the Cold War era CIA operative who was a tireless campaigner against communism it took hold quickly and became a means to articulate fears of totalitarian tendencies in American life David Seed traces the assimilation of the notion of brainwashing into science fiction political commentary and conspiracy narratives of the Cold War era He demonstrates how these works grew out of a context of political and social events and how they express the anxieties of the time The Manchurian Candidate Seed provides new interpretations of writers such as Orwell and Burroughs within the history of psychological manipulation for political purposes using declassified and other documents to contextualise the material he explores the shifting view points of how brainwashing is represented changing from an external threat to American values to an internal threat against individual American liberties by the U S government will welcome this study

Brainwashing Massimo Introvigne,2022-07-21 The events of January 6 2021 gave new currency to the idea of brainwashing Some claimed that Trump s followers had been brainwashed while others insisted that a deep state had brainwashed most Americans into accepting a rigged election Scholars who explain that brainwashing theories have long been rejected by most academics and courts of law find it difficult to be heard Brainwashing nevertheless remains a convenient explanation of how seemingly normal citizens convert to unusual religious or political ideologies This Element traces its origins to the idea that conversion to deviant beliefs is due to black magic A more scientific hypnosis later replaced magic and the Cold War introduced the supposedly infallible technique of brainwashing From the 1960s new religious movements more commonly called cults were accused of using brainwashing Most scholars of religion reject the theory as pseudoscience but the controversy continues to this day Manipulation Phil Anger,2022-02-15 Do You Want To Efficiently Read Body Language And Counteract Narcissists And Energy Vampires Do You Want To Learn The Many Secrets Of NLP Gain Self Confidence You Always Needed And Influence People In Your Favor Then Keep Reading Do you wish to master Psychological Manipulation and use it to your advantage Would you like to be able to read someone s Body Language and respond react appropriately Have you heard about Neuro Linguistic Programming NLP and its various benefits in day to day activities This book is perfect for anyone looking to discover the many secrets of Dark Psychology The human mind is
