James,2015-04-30 Explores how the value added tax VAT has risen from relative obscurity to become one of the world s most dominant revenue instruments *International Taxation of Energy Production and Distribution* John

Abrahamson,2018-04-20 Energy is a major global industry with rapid ongoing changes in areas such as carbon taxes emissions trading regimes and the development of renewable energy The cross border nature of the industry calls for the thorough expert and up to date analysis provided in this timely and practical book Taking a down to earth problem solving approach to policy and practice in the field worldwide the author focuses on the international tax framework and the tax regimes in leading energy producing and consuming countries The book introduces and analyses significant international tax issues related to energy production and distribution extending from the tax regime in the country where the oil gas or coal exploration and production activities are located through to cross border transportation using pipelines tankers and bulk carriers to the taxation of power stations and electricity transmission and distribution networks The taxation issues covered include the following upstream oil and gas and mining taxes incentives for renewable energy carbon taxes and emission trading regimes dividend interest and royalty flows foreign tax credits permanent establishments mergers and acquisitions taxation issues for derivatives and hedging transfer pricing regional purchasing marketing service and intangible property structures free trade agreements and customs unions dispute resolution and tax administration and risk management Detailed updates are included on the most recent international tax developments affecting the energy industry including the OECD Action Plan on Base Erosion and Profit Shifting BEPS and the 2017 OECD Transfer Pricing Guidelines Case studies offer an opportunity to apply international tax analysis to specific examples and gain practice in identifying and discussing relevant international taxation issues This book will be of significant value to corporate tax managers and in house counsel together with accountants lawyers economists government officials and academics connected with the energy industry and related international taxation issues Redesigning Petroleum Taxation Emre Üşenmez,2018-10-15 Since its inception some 40 years ago petroleum specific taxation in the UK has been subject to numerous modifications Often these modifications were brought into place not only to sufficiently incentivise the investors but also to capture a fair share for the government However it is evident from the frequency of changes that finding the right balance between these two aims is no easy matter Such a balance and the consequent fiscal stability is necessary for the long term relationship between the parties to endure to their mutual benefit Still it does not take much for one or other party to feel that they are out of balance As a consequence one party feels that the other party is taking an undue proportion of the value generated and that they are losing out Yet achieving that balance and fiscal stability is possible To understand this possibility this book first clarifies what is meant by

sufficient incentivisation and fair share before developing a new fiscal system that manages this balance and stability Such clarification yields objective criteria against which to assess not only the existing regime but also the newly proposed regime This approach is further complemented by the critical analysis of the fiscal legislative framework and the evaluation of the legal positions of specific contractual elements and mechanisms found within that framework This latter analysis is important in order to reduce the legal uncertainty such elements may create which can otherwise lead to further reactive amendments and revisions to the fiscal regime in the future

Heat, Dust, and Taxes Lex Fullarton, 2014-04-01 In *Heat Dust and Taxes* Lex Fullarton explores the taxpayer compliance behavior of blue collar workers in the Pilbara region of Western Australia in the 1990s who participated in mass marketed tax avoidance schemes at significantly higher rates than any other group of Australian taxpayers Investigating the motivational factors which might have caused that and providing a broad background and context Fullarton considers the physical economic and social environments of the Pilbara region highlighting the extremely harsh physical and social environments in which the locals live and work He examines the history of tax avoidance schemes in Australia from the 1970s to the 1990s to illustrate the development of mass marketed tax avoidance schemes Drawing on first hand interviews with the miners as well as archival and statistical material this rich and detailed study skillfully reveals the dominant motivational factors leading to the remarkable spread of tax avoidance schemes

Foreign Mining Investment Law Richard W. Roeder, 2016-06-28 This work analyzes and compares the legal framework for foreign investments in the mining sector in Australia South Africa and Colombia The admission of foreign investments corporate structure requirements ownership of minerals and mineral rights mining licenses land access performance requirements distribution of profits and the tax regime repatriation of profits national and international dispute resolution mechanisms and the question of the Social License to Operate SLO Corporate Social Responsibility CSR policies are discussed in detail The work concludes with an outlook on the future regulation of foreign mining investments and finally suggests the development of an International Mining Investment Law
