

ACCOUNTABILITY

DEFINITION

Accountability is the responsibility of an individual or organization to answer for its activities. It involves accepting the consequences, both positive and negative, of one's actions. This principle ensures transparency and honesty in various processes and decisions. It is a cornerstone of trust in both personal and professional relationships.

EXAMPLES

- **Admitting Mistakes:** Instead of deflecting blame or making excuses, an accountable person owns up to their errors and seeks to make amends.
- **Seeking Feedback:** Proactively asking for feedback on performance and genuinely being open to making improvements based on that feedback.

Avery,2020-07-17 Our world is under pressure with growing inequalities in wealth and access to food and clean water We depend too heavily on polluting fuels and diminishing natural resources Traditional cultural practices are being swamped by global popular culture The Thai model of sufficiency thinking aims to transform the mindset of a whole population to achieve the seemingly impossible enriching everyone s lives in a truly sustainable way Innovative management practices developed by King Bhumibol Adulyadej of Thailand have been applied across Thailand in agriculture education business government and community organisations for over two decades In this book chapters written by eminent Thai scholars explain sufficiency thinking and review its implementation in different sectors including community development

business agriculture health care schools and even in prisons Is Thailand unique in having discovered the holy grail of a more responsible form of capitalism No it is not but it is the first country whose government has adopted this kind of thinking as national policy we obviously need to revise dramatically our thinking about the outlines of a just economy and a decent society in which everyone can lead dignified lives Sufficiency Thinking provides creative approaches to this quandary and this important volume is a brilliant addition to the growing literature critical of mainstream business as usual ideology John Komlos Professor Emeritus University of Munich Transparent Lobbying and Democracy Šárka Laboutková,Vít Šimral,Petr Vymětal,2020-02-04 The authors come up with some innovative tools namely the Catalogue of transparent lobbying They look at and evaluate the impact on both key stakeholders lobbyists and targets of lobbying monitoring of lobbying activities and sanctioning for breaches of rules This tool holds out benchmarking capacity of sound framework for understanding of lobbying in the context of democracy legitimacy of decision making and accountability David Ondr ka member of global Board of Transparency International head of Transparency International Czech Republic Transparent Lobbying and Democracy provides a comprehensive view into the phenomenon of lobbying As a well established scientist specializing in democracy civil society and the public sphere I see it as a useful and enriching contribution to the debate on lobbying its necessary transparency and its role in the democratization process This book has the potential to reach an international audience of experts and interested lay persons and both complement and compete with publications on similar issues Karel B M ller University of Economics in Prague Czech Republic This book deals with the current as yet unsolved problem of transparency of lobbying In the current theories and prevalent models that deal with lobbying activities there is no reflection of the degree of transparency of lobbying mainly due to the unclear distinction between corruption lobbying in general and transparent lobbying This book provides a perspective on transparency in lobbying in a comprehensive and structured manner It delivers an interdisciplinary approach to the topic and creates a methodology for assessing the transparency of lobbying its role in the democratization process and a methodology for evaluating the main consequences of transparency The new approach is applied to assess lobbying regulations in the countries of Central Eastern Europe and shows a method for how lobbying in other regions of the world may also be assessed *Governance Theory and Practice* V.
