Educational Times ,1912 **The Study of Behavior** Jerry A. Hogan,2017-11-02 Behavior studies now span a variety of sub disciplines including behavioral ecology neuroscience cognitive psychology and evolutionary developmental biology While the fields rapid growth has led to startling new insights into animal behavior it has brought increasingly fragmented approaches to the subject Integrating ideas and findings from a range of disciplines this book provides a common framework for understanding diverse issues in behavior studies The framework is derived from classical ethology incorporating concepts and data from research in experimental psychology neurophysiology and evolutionary biology Hogan outlines the origin and development of major ideas and issues in the field drawing on examples throughout to highlight connections across sub disciplines Demonstrating how results in one area can directly inform work in others the book ultimately proposes concepts to facilitate new discussions that will open the way for improved dialog between researchers across behavior studies

Educational Times and Journal of the College of Preceptors ,1912 *Education Outlook* ,1913 The Educational Times, and Journal of the College of Preceptors ,1912 Modern Materialism and Emergent Evolution William McDougall,2016-02-12 Originally published in 1929 McDougall examines the pertinent conflict between religion and science His work exhibits the failure of scientists to explain human action mechanistically the essence of modern materialism establishes purposive action as a type of event radically different from all mechanistic events and justifies the belief in teleological causation without which there can be neither religion nor morals This title will be of interest to students of both the Humanities and Sciences particularly those studying psychology and philosophy **Science** John Michels (Journalist),1924 *British Medical Journal* ,1929 **Antiquarian Bookman** ,1963 **The Oxford Handbook of Human Motivation** Richard M. Ryan,2012-02-16 Motivation is that which moves us to action Human motivation is thus a complex issue as people are moved to action by both their evolved natures and by myriad familial social and cultural influences The Oxford Handbook of Human Motivation collects the top theorists and researchers of human motivation into a single volume capturing the current state of the art in this fast developing field The book includes theoretical overviews from some of the best known thinkers in this area including chapters on Social Learning Theory Control Theory Self determination theory Terror Management theory and the Promotion and Prevention perspective Topical chapters appear on phenomena such as ego depletion flow curiosity implicit motives and personal interests A section specifically highlights goal research including chapters on goal regulation achievement goals the dynamics of choice unconscious goals and process versus outcome focus Still other chapters focus on evolutionary and biological underpinnings of motivation including chapters on cardiovascular dynamics mood and neuropsychology Finally chapters bring motivation down to earth in reviewing its impact within relationships and in applied areas such as psychotherapy work education sport and physical activity By providing reviews of the most advanced work by the very best scholars in this field The Oxford Handbook of Human Motivation

represents an invaluable resource for both researchers and practitioners as well as any student of human nature
