Nuclear War Raymond G. Wilson, 2014 Nuclear War Hiroshima Nagasaki and A Workable Moral Strategy for Achieving and Preserving World Peace Raymond G Wilson The real truth of the matter is as you and I know that a financial element in the large centers has owned the government of the United States since the days of Andrew Jackson Franklin D Roosevelt There is considerable reason to believe President Roosevelt's statement is quite true thus the financial element in the large centers shares responsibility and blame for the tens if not hundreds of thousands of war deaths in the last two decades The people of the world need protection from those responsible for provoking nations to war In the United States this responsibility lies with all elements in the highest levels of government the decision makers It lies with those who tinker with political and economic machinations most likely for the advantage of a financial element in the large centers These are probably people young enough and sufficiently uninformed to have no conception of the atrocity of the nuclear confrontations and conflagrations to which they are quite possibly leading the world This group of people may include most people serving in the U S Congress and from personal experience many in the U S Military I have my doubts whether Presidents have seen all of the results of the world's first nuclear war they are probably shielded from this Photographs of the victims were confiscated and held confidential for more than 22 years after 1945 There were well more than 210 000 victims not many photographs were made and survived You can learn from this book a tiny fraction of the truth about what happens to people caught in nuclear war Although the truth from more than 210 000 will never be heard In a future war there would be hundreds of thousands more likely hundreds of millions of victims The United States government has not revealed this kind of truth about its first nuclear war As of early 2014 no sitting president has ever visited Hiroshima or Nagasaki In Chapter 5 a solution is suggested to save us all from our nuclear madness I hate war as only a soldier who has lived it can only as one who has seen its brutality its futility its stupidity Dwight D Eisenhower we also possess the seeds of goodness and justice that humankind was given by nature and has fostered over the ages We have

the ability to cultivate self control and consideration for others and to strive to live together in a humane and harmonious manner with others The revival of such true humanity not only between individuals but also between nations is an absolute necessity today for the age has come when one nation s self centered behavior could lead all humanity to annihilation Naomi Shohno 1986 America can do whatever we set our mind to Barack Obama

Graphic Novels and Comics in Libraries and Archives Robert G. Weiner,2010-04-19 To say that graphic novels comics and other forms of sequential art have become a major part of popular culture and academia would be a vast understatement Now an established component of library and archive collections across the globe graphic novels are proving to be one of the last kinds of print publications actually gaining in popularity Full of practical advice and innovative ideas for librarians educators and archivists this book provides a wide reaching look at how graphic novels and comics can be used to their full advantage in educational settings Topics include the historically tenuous relationship between comics and librarians the aesthetic value of sequential art the use of graphic novels in library outreach services collection evaluations for both American and Canadian libraries cataloging tips and tricks and the swiftly growing realm of webcomics
