Basic Communism Its Rise Spread And Debacle In The 20th Century:

Basic Communism Clarence Buford Carson,1990 **Ideas and Movements That Shaped America** Michael Green,Scott L. Stabler,2015-07-28 America was founded on bold ideas and beliefs This book examines the ideas and movements that shaped our nation presenting thorough accessible entries with sources that improve readers understanding of the American experience Presenting accessibly written information for general audiences as well as students and researchers this three volume work examines the evolution of American society and thought from the nation s beginnings to the 21st century It covers the seminal ideas and social movements that define who we are as Americans from the ideas that underpin the Bill of Rights to slavery the Civil Rights movement and the idea of gay rights even if U S citizens often strongly disagree on these topics Organized topically rather than chronologically this encyclopedia combines primary sources and secondary works or historical analyses with text describing the ideas and movements in question In addition each entry includes a list of suggestions for further reading that directs readers to supplementary sources of information The set s unique perspective serves to depict how American society has evolved from the nation s beginnings to the present revealing how Americans as a people have acted and responded to key ideas and movements Global Geographies of Post-Socialist Transition Tassilo Herrschel,2006-09-27 Since the formal raising of the Iron Curtain there has been much interest in post socialism and the process of post socialist transition This timely book provides a systematic review and analysis of the process of transition Herrschel explores recent theories concepts and debates on post socialism and the notion of transition provides a systematic topical account of post socialist transitions around the world as evidence by social economic and political processes examines case studies of post socialist transition in east and Central Europe the former Soviet Union Asia and South East Asia and Africa and Latin America brings together theoretical and practical aspects by examining what lessons can be learned from recent experiences Global Geographies of Post Socialist Transition provides a truly global comparative account of the meaning and processes of post socialist transition and will be an invaluable resource for all those interested in this area **Communism** Fred Weekes,2009-12 A young naval officer takes on the task of understanding the spread of Communism He starts with the seminal work of Marx the Communist Manifesto and continues reading and analyzing world history in the twentieth century The lives of Lenin and Stalin are gone into followed by the struggle on the part of the Communists and the Fascists over Spain during its civil war 1936 1939 In China the conflict between Mao and Chiang Kai shek is explained It ends with Mao victorious and Chiang moving to Taiwan with his army On the death of Mao Deng Xiaoping returns to the scene and steers China away from Communism toward a form of market economy In our hemisphere four movements are analyzed that of Castro in Cuba Ortega in Nicaragua Chavez in Venezuela and Allende in Chile With the exception of Castro s stated intention of forming a Communistic government Ortega Chavez and Allende can be thought of mixing Communism with Socialism in creating their governments The young naval officer does not escape

romantic entanglements He experiences the attractions of several women before finding a woman who is interested in him for marriage and starting a family Christianity in America G. Wright Doyle,2013-07-17 Was America founded as a Christian nation What role has the Christian faith of many of its leaders played in the course of its history How has Christianity affected American culture and society This trenchant critique of the role of Christianity in American history highlights both the ways in which Christians have made many valuable contributions as salt and light and how they have caused a great deal of damage by trying to be savior and lord Believers in Christ have built one of the most Christianized countries in the world with benefits for millions They have also nurtured messianic aspirations that have spawned disasters for themselves and other countries Generous in praise for dedicated believers who have reflected the character of Christ the book is also unsparing in criticism of Christians who have sometimes with the best intentions failed to act wisely In short the reader will be encouraged by the many triumphs of Christianity in America and sobered by its tragedy The First Men in the Moon Herbert George Wells,1998 Completes the series of Wells 1866 1946 science fiction classics In a long introduction and extensive footnotes editor Leon Stover argues that the anthill society of the moonlings was not a dystopia but a model of what Wells advocated for humans He draws on Wells other fiction and his non fiction political works to buttress the claim Appended are a review by Arnold Bennett two essays by Wells his and Jules Verne s views of each other and a couple contemporary scientific articles c Book News Inc The Right Guide Derk Arend Wilcox,2000 *First Things* ,1991
