Language of Man: Deciphering Petroglyphs Chris Hegg, 2015-12-01 Get ready to witness and unlock the first messages left from the ancient civilizations who vanished without even being known to exist until now These messages detail maps and sagas of a once worldly empire who traded in goods of unimaginable quantities from all over the American continent too far off lands Detailed is symbology to understand the vast network of hidden caves of ancient goods storage and transport routes Of treasure and artifacts of great importance left in hidden locations throughout time awaiting rediscovery so the world may once again know of this magnificent empire 13 000 years ago Our early explorers quickly discovered they were not the first to conquer the farthest shores of earth Modern man gazed upon ancient images and monuments of long ago pioneers already decaying from great age We have all contemplated what secrets they kept locked in a maze of limitless configurations of beauty and synchronicity Such industrious and indelible creations were certainly made to convey meaning What connection does a global network of rock carvings and mega structures mean to our history Well the answer will surprise you Chris Hegg has dedicated his life to finding out these answers At age 45 Chris has moved beyond the stumbling decades of logging and failures of comprehension to gain ever increasingly small victories in their understanding Now at a fever pitch in symbol decipherment Chris has uncovered the most startling facts of individual symbol meanings that reveal amazing stories of courage inhospitable lands and global travel unimaginable when he first started this quest A much deeper innate secret lay rooted in the symbols however they were the first Universal Language of Man Thought as just rock art by archeologists petroglyphs megaliths and geoglyphs are all related comprising a single ancient language This language is known in biblical stories and now confirmed by scientific methodology This book is dedicated to that first Universal Language To be reborn so the secrets lost to us can be discovered once more Finally a tool capable of peeling away the layers of our forgotten past to read firsthand accounts of the struggles of man on a global scale over 13 000 years ago The stories are a tribute to our perseverance and domination in a harsh world conquered thousands of years before Columbus Decipher Stel
