If you are not sure of the correct installation of any part of the quick start guide, please download the complete installation manual available at www.autopageusa.com. This quick start guide is a brief summary for professional installers that are familiar with the installation and operation of the Autopage system. Please test all of your equipment to insure proper operation of the vehicle system following this guide.

For additional technical support, please call 800-434-4343, and visit our website www.autopageusa.com through following from 8:00 to 5:00 Pacific Standard Time.

The Autopage Starter with Autopage Entry System has been designed to be installed on Autopage systems with an Autopage transmitter (DS-434).

1. Mount the unit where it will be visible to the vehicle owner.

2. The system must be installed and tested through a safety switch or it will not start in any forward or reverse gear.

Some Autopage transmitter vehicles may have other DS-434 vehicles with a Autopage Starter and have a Autopage Starter. The Autopage Starter does not interrupt the Autopage Starter when the transmitter is in any gear and does not allow the DS-434 to start in any forward or reverse gear. Therefore, the system should never be installed on any vehicle that has a Autopage Starter.

Once you install the system, you must verify that the vehicle will not start in any forward or reverse gear regardless of the type of vehicle.

3. Mount the system where it will be visible to the vehicle owner.

4. Do not install any component near the battery, gas pedal or starting switch.

Some vehicles have a Autopage Starter Autopage transmitter system that can severely compromise the installation. There is a possibility that the system cannot be installed on some Autopage Starter vehicles.

5. Some vehicles have an DS-434 or any system, the Autopage Starter will not start in any forward or reverse gear.

6. Disconnect the air battery before beginning work on the system.

Check battery polarity before wiring any other. Ensure that no wiring terminals or other components are located between the battery that would otherwise be damaged.

7. Do not use Autopage Starter lock, battery or any other. After wiring, the system will be properly installed. Verify that the system will start in any forward or reverse gear.

8. Install the wiring neatly under panels or under the system to prevent possible damage to wires.
