Lab Report Format Expectations

Utilize college level grammar and professional formatting when completing this worksheet. Submissions without proper formatting, all required photos or sufficient responses will be rejected. Pre-lab Questions

1. Explain the digestion that occurs in the oral cavity.
Oral digestion is also known as mechanical digestion. Mastication is the process of reducing the size of food particles in the mouth cavity. Saliva aids chemical digestion by creating the enzymes required to break down food.
2. What is the function of the liver in digestion?
The liver regulates almost all of the chemicals in the blood and excretes bile, which aids the liver's ability to eliminate waste. All the blood that exits the stomach and intestines ends up in the liver.
3. What role does the gall bladder play in digestion?
The body requires bile from the liver, which is stored in the gallbladder and discharged into the duodenum, to digest and absorb all dietary lipids and fats.
4. Why is the orientation of muscle of the stomach wall important? How does this contribute to its function?
