Big Data Mining Big Data Intelligence 3:

Big Data Intelligence and Computing Ching-Hsien Hsu,Mengwei Xu,Hung Cao,Hojjat Baghban,A. B. M. Shawkat Ali,2023-04-30 This book constitutes the proceedings of the International Conference on Big Data Intelligence and Computing DataCom 2022 which took place in Denarau Island Fiji in December 2022 The 30 full papers included in this volume were carefully reviewed and selected from 88 submissions The papers detail big data analytics solutions distributed computation paradigms on demand services autonomic systems and pervasive applications **Proceedings of the 3rd International Conference on Cognitive Based Information Processing and Applications—Volume 3** Bernard J. Jansen,Qingyuan Zhou,Jun Ye,2024-05-30 This book contains papers presented at the 3rd International Conference on Cognitive based Information Processing and Applications CIPA in Changzhou China from November 2 3 2023 The papers represent the various technological advancements in theory technology and application of artificial intelligence including precision mining intelligent computing deep learning and all other theories models and technologies related to artificial intelligence It caters to postgraduate students researchers and practitioners specializing and working in the area of cognitive inspired computing and intelligent computing The book represents Volume 3 for this conference proceedings which consists of a 3 volume book series *Big Data Analytics for Smart and Connected Cities* Dey, Nilanjan,Tamane, Sharvari,2018-09-07 To continue providing people with safe comfortable and affordable places to live cities must incorporate techniques and technologies to bring them into the future The integration of big data and interconnected technology along with the increasing population will lead to the necessary creation of smart cities Big Data Analytics for Smart and Connected Cities is a pivotal reference source that provides vital research on the application of the integration of interconnected technologies and big data analytics into the creation of smart cities While highlighting topics such as energy conservation public transit planning and performance measurement this publication explores technology integration in urban environments as well as the methods of planning cities to implement these new technologies This book is ideally designed for engineers professionals researchers and technology developers seeking current research on technology implementation in urban settings The Human Element of Big Data Geetam S. Tomar,Narendra S. Chaudhari,Robin Singh Bhadoria,Ganesh Chandra Deka,2016-10-26 The proposed book talks about the participation of human in Big Data How human as a component of system can help in making the decision process easier and vibrant It studies the basic build structure for big data and also includes advanced research topics In the field of Biological sciences it comprises genomic and proteomic data also The book swaps traditional data management techniques with more robust and vibrant methodologies that focus on current requirement and demand through human computer interfacing in order to cope up with present business demand Overall the book is divided in to five parts where each part contains 4 5 chapters on versatile domain with human side of Big Data

Proceedings of the 2022 3rd International Conference on Big Data and Informatization Education (ICBDIE
