Irrationality in Health Care Douglas E Hough, 2023-05-25 A look at the American health care system through analysis of consumer and provider behavior The health care industry in the US is peculiar We spend close to 18% of our GDP on health care yet other countries get better results and we don t know why To date we still lack widely accepted answers to simple questions such as Would requiring everyone to buy health insurance make us better off Drawing on behavioral economics as an alternative to the standard tools of health economics author Douglas E Hough seeks to diagnose the ills of health care today more clearly A behavioral perspective makes sense of key contradictions from the seemingly irrational choices that we sometimes make as patients to the incongruous behavior of physicians to the morass of the long lived debate surrounding reform With the new health care law in effect it is more important than ever that consumers health care industry leaders and the policymakers who are governing change reckon
