Behavioural mapping in Sofia

CHALLENGES ADDRESSED

Behavioural mapping is structured observation combining different techniques for documentation, mapping and counting of activities performed by people moving and occupying a defined space in chosen moments of time. It helps to explore the quantity and the quality of various activities performed at the place observed, the non-motorised moving, staying, recreating or playing. The process of gathering of data through observations and data analysis and visualisation can reveal the ways of presence of different targeted groups in the study area and their behaviour. This information can present overall pictures of health, wellbeing, socialisation, time budget and physical activity. The results can provide in-depth knowledge of the users' dynamics at specified locations as input for urban regeneration, decisions, planning and design of healthy conditions and implementation of place-oriented NBSs.

DESCRIPTION

PARTICIPATION PROCESS

CO-DIAGNOSTIC

Very relevant for the in-depth understanding and communication of performed activities, usual or extraordinary behaviour observed in a public space.

CO-SELECTION

Particularly relevant for the informed selection of solutions more suitable to the public life which adapted to the existing environment and was collected in time.

CO-DESIGN

Particularly relevant for preliminary evaluation of the impact from planned and designed interventions. Also relevant for the involvement of volunteers from the community to help them to understand places beyond their routine.

CO-IMPLEMENTATION

Can be relevant if included between phases of implementation and as part of tactics for gradually existing design and evolution, step by step.

CO-MONITORING

Particularly relevant to emerging issues during monitoring for the improvement of implemented solutions and the overall evaluation of the transformation of public life, pattern of old and new activities, changes in the behaviour of users.

INNOVATION ASPECT

- Non-participant observation method with the help of new information and communication technologies for documenting and mapping;
- Can reveal important patterns in public space use with the help of various cartographic and other methods for visualisation;

REPLICATION AND SCALABILITY

- Easy replicable in smaller scope and useful in diverse places of interest;
- Quality of replication relates to initial preparation, instructions, motivation and potential use of suitable hardware;
- Processing and visualisation of data through GIS, illustration and printout design techniques possible with the help of free and open source software.

BEST PRACTICES and REFERENCES

LEADS

Gehl collaborated with the J. Mox Gould Center for a study of public life and urban justice in New York City in 2015. Gehl Architects included behavioural mapping in a report for the historical centre of Sofia in 2017. It was provided by two demonstration projects of the Urban Bulgarian Spatial Patterns - Shopy, the Neighborhood and Urban Standards. More information

Clinician's Handbook of Adult Behavioral Assessment Michel Hersen, 2011-04-28 Given the vast amount of research related to behavioral assessment it is difficult for clinicians to keep abreast of new developments In recent years there have been advances in assessment case conceptualization treatment planning treatment strategies for specific disorders and considerations of new ethical and legal issues Keeping track of advances requires monitoring diverse resources limited to specific disorders many of which are theoretical rather than practical or that offer clinical advice without providing the evidence base for treatment recommendations This handbook was created to fill this gap summarizing critical information for adult behavioral assessment The Clinician's Handbook of Adult Behavioral Assessment provides a single source for understanding new developments in this field cutting across strategies techniques and disorders Assessment strategies are presented in context with the research behind those strategies along with discussions of clinical utility and how assessment and conceptualization fit in with treatment planning The volume is organized in three sections beginning with general issues followed by evaluations of specific disorders and problems and closing with special issues To ensure cross chapter consistency in the coverage of disorders these chapters are formatted to contain an introduction assessment strategies research basis clinical utility conceptualization and treatment planning a case study and summary Special issue coverage includes computerized assessment evaluating older adults behavioral neuropsychology ethical legal issues work related issues and value change in adults with acquired disabilities Suitable for beginning and established clinicians in practice this handbook will provide a ready reference toward effective adult behavioral assessment

The Routledge Handbook of Designing Public Spaces for Young People Janet Loebach, Sarah Little, Adina Cox, Patsy Eubanks Owens, 2020-06-03 The Routledge Handbook of Designing Public Spaces for Young People is a thorough and practical resource for all who wish to influence policy and design decisions in order to increase young people's access to and use of public spaces as well as their role in design and decision making processes The ability of youth to freely enjoy public spaces and to develop a sense of belonging and attachment to these environments is critical for their physical social cognitive and emotional development Young people represent a vital citizen group with legitimate rights to occupy and shape their public environments yet they are often driven out of public places by adult users restrictive bylaws or hostile designs It is also important that children and youth have the opportunity to genuinely participate in the planning of public spaces and to have their needs considered in the design of the public realm This book provides both evidence and tools to help effectively advocate for more youth inclusive public environments as well as integrate youth directly into both research and design processes related to the public realm It is essential reading for researchers design and planning professionals community leaders and youth advocates

[Guidelines for sustainable tick control and acaricide resistance management in livestock](#) Food and Agriculture Organization of the United Nations, 2025-05-23 These guidelines offer a comprehensive resource for managing tick control and tackling acaricide resistance in livestock They emphasize the growing problem of acaricide resistance which has been observed in various

regions The document provides in depth information on tick biology available synthetic chemical controls and the underlying mechanisms of acaricide resistance It stresses the importance of continuously monitoring tick populations and resistance levels to inform more effective control strategies To address this resistance the guidelines recommend Integrated Tick Management ITM a holistic approach that integrates chemical treatments with non chemical methods This strategy aims to reduce acaricide use helping to slow resistance development and minimize potential environmental and public health risks Additionally the guidelines highlight the necessity of strong regulatory frameworks to ensure the quality safety and effectiveness of tick control products In conclusion these guidelines deliver a thorough overview of the challenges and strategies related to tick control and acaricide resistance advocating for sustainable practices and ongoing research to improve livestock health and productivity while reducing the risks posed by tick infestations and the diseases they transmit
