Parents at Work Mark Gatto, 2023-08-13 This unique volume uses the innovative methodological approach of dystopian fictocriticism to offer a speculative critical narrative of parents at work The author begins with a review of fictocriticism and the blurring of lines between genre and gender scholarship The book follows a temporally fragmented structure of the past present and future of parenthood in organisations Integrating theories of masculinities and gendered hierarchies in organisations the author uses critical discourse analysis of parental experiences to discuss the reproduction of patriarchal discourse The dystopian fictocriticism narrative is grounded in empirical research with parents and highlights the structural and cultural barriers they face The narrative concludes with the subversive potential of caring communities within organisations as a possible future to work towards This book will be of interest to students and scholars in Gender Studies Utopia Dystopia Studies and Organization Studies

Ambiguity and Narratology Simon Grund, Robert Kirstein, Julian Wagner, 2024-10-21 As a well known phenomenon in everyday communication ambiguity has increasingly become the subject of interdisciplinary research in recent years However within this context it has been observed that words or expressions situated within the artistic framework of storytelling have not yet been at the centre of research interest This book aims to bridge this gap by examining the phenomenon of ambiguity from the perspective of narratology understood as a general theory of narration and narrative communication The volume pursues two goals Firstly it seeks to demonstrate that the interdisciplinary combination of linguistics cultural history and narratology enriches the field of literary studies significantly This focus not only highlights how narrative techniques often rely on everyday language conventions but also explores how various textual features narrative devices or even entire storylines can be affected by phenomena or lead to experiences of ambiguity These ambiguities often serve as poetic strategies that are deliberately set in the communicative process of text and reader to achieve certain narrative goals Secondly ambiguity as a characteristic of narrative communication seves as a linking element across different fictional and factual text types and

genres throughout time and cultures The collected essays cover a wide range of narrative texts from Roman comedy to funerary reliefs from historiographical writings to utopian tales from Goethe's novels to contemporary fantasy literature In its broad approach the volume thus contributes to the project of diachronic narratology which like the research on ambiguity in literary and cultural studies has recently gained increasing momentum The combined consideration of ambiguity and narratology not only raises awareness of phenomena of ambiguity in narrative texts but also encourage reflection on the theoretical foundations of narrative particularly on the methods and devices used to describe these ambiguous structures Overall the volume represents an exploration of a relatively unexplored interdisciplinary field aiming to stimulate further research

PHILOSOPHICAL INTERPRETATIONS IN LITERATURE Dr. Sankhang Basumatary ,2022-04-28 The main purpose of this book is to analyse the philosophical ideas employed by Jean Paul Sartre in his philosophical fiction titled Nausea 1938 Sartre tries to convey some of his philosophical concerns through this novel Although the philosophical ideas are conveyed in the novel these are not as vivid as could be in a philosophical texts The Transcendence of the Ego 1936 Being and Nothingness 1943 The significance of this work however lies not on understanding the philosophical concerns in isolation but in employing the same in the form of a literary work and certain literary technique in pseudonymous plays or names Sartre engages with pseudonymous play of protagonist and many other characters in his semi autobiographical novel Nausea as he also says by himself in his later publication of autobiographical work The Words 1946 and first undated sheets of the novel Nausea where he laments his constant confrontation with difficult situations of lived experience
