Breaking Out How To Build Influence In A World Of Competing Ideas:

Breaking Out John Butman, 2013-04-30 How do you gain influence for an idea In *Breaking Out* idea developer and adviser John Butman shows how the methods of today's most popular idea entrepreneurs including dog psychologist Cesar Millan French lifestyle guru Mireille Guiliano French Women Don't Get Fat TOMS founder Blake Mycoskie and many others can help you take an idea public and build influence for it It isn't easy Butman argues that the rise of the ideaplex TED Twitter NPR YouTube online learning and all the rest has caused such an explosion in the creation and sharing of ideas that it has become much easier to go public yet much harder to gain influence But it can be done Based on his own experience in advising content experts worldwide Butman shows how the idea entrepreneur breaks out by combining personal narrative with rich content creating many forms of expression from books to live events developing real world practices and creating respiration around the idea such that other people can breathe it in and make it their own The resulting idea platform can reach many different audience groups and continue to build influence for many years and even decades If you have an idea and want to make a difference in your organization build a change movement in your community or improve the world in some way this book will get you started on the journey to idea entrepreneurship **New World, Inc.** John Butman, Simon Targett, 2025-04-08 Three generations of English merchant adventurers not the Pilgrims as we have so long believed were the earliest founders of America Profit not piety was their primary motive Some seventy years before the Mayflower sailed a small group of English merchants formed The Mysterie Company and Fellowship of Merchant Adventurers for the Discovery of Regions Dominions Islands and Places Unknown the world's first joint stock company Back then in the mid sixteenth century England was a small and relatively insignificant kingdom on the periphery of Europe and it had begun to face a daunting array of social commercial and political problems Struggling with a single export woolen cloth the merchants were forced to seek new markets and trading partners especially as political discord followed the straitened circumstances in which so many English people found themselves At first they headed east and dreamed of Cathay China with its silks and exotic luxuries Eventually they turned west and so began a new chapter in world history The work of reaching the New World required the very latest in navigational science as well as an extraordinary appetite for risk As this absorbing account shows innovation and risk taking were at the heart of the settlement of America as was the profit motive Trade and business drove English interest in America and determined what happened once their ships reached the New World The result of extensive archival work and a bold interpretation of the historical record *New World Inc* draws a portrait of life in London on the Atlantic and across the New World that offers a fresh analysis of the founding of American history In the tradition of the best works of history that make us reconsider the past and better understand the present Butman and Targett examine the enterprising spirit that inspired European settlement of America and established a national culture of entrepreneurship and innovation that continues to this day Innovation in the Arts Jason C. White, 2022-08-01 This concise guide aims to

increase what we understand by innovation in the arts and identify and support opportunities and strategies for the unique ways in which artists and arts administrators think about engage in and pursue successful innovation in their diverse creative practice Innovations in the Arts are often marginalised from a research perspective in part because of the lack of a sound and compelling theoretical framework to support and explain process distinctions from business and management innovation This book identifies three key concepts art innovation art movement innovation and audience experience innovation supported by formal theory for each concept presented and evidenced through case studies in art history In this way the book enables readers to identify explain and support their innovation efforts as visual literary and performing artists and arts administrators It also explores strategies for pursuing innovation in practice Drawing attention to the unique ways in which artists and arts administrators think about and engage in innovation this readable book will be an essential reading for students in all aspects of the creative and cultural industries and an essential guide to developing and promoting innovation in the arts for practitioners and researchers alike
