Robert S. Wyer, Jr., 2014-01-02 Narrative forms of mental representation and their influence on comprehension communication and judgment have rapidly become one of the main foci of research and theory in not only psychology but also other disciplines including linguistics sociology and anthropology No one has been more responsible for the awakening of interest in this area than Roger Schank and Bob Abelson In their target article they argue that narrative forms of mental representation or stories are the basic ingredients of social knowledge that play a fundamental role in the comprehension of information conveyed in a social context the storage of this information in memory and the later communication of it to others After explicating the cognitive processes that underlie the construction of narratives and their use in comprehension memory and communication the chapter authors consider the influence of stories on a number of more specific phenomena including political judgment marital relations and memory distortions that underlie errors in eyewitness testimony The provocativeness of the target chapter is matched by that of the companion articles each of which not only provides an important commentary on Schank and Abelson s conceptualization but also makes an important contribution to knowledge in its own right The diversity of perspectives reflected in these articles whose authors include researchers in linguistics memory and comprehension social inference cognitive development social judgment close relationships and social ecology testifies to the breadth of theoretical and empirical issues to which the target chapter is potentially relevant This volume is a timely and important contribution to research and theory not only in social cognition but in many other areas as well **P.S. Perilous Passions: Ethics and Emotion in Early Modern Spain Hilaire Kallendorf, **In the Name of Love** Heather Fraser, 2008-10-07. Although love is the hallmark of humanity, it is not widely discussed in social work and other related professions with respect to its potential connection to abuse. In this groundbreaking book, the author argues that while love and abuse should not co-exist, they often do. Using a feminist narrative approach, stories about love, abuse, and social work are told with the purpose of understanding domestic violence and other forms of abuse. Based on interviews with 84 women of varying ages in Canada and Australia, the author shows how the pain and shame of intimate abuse can leave its mark on the bodies, minds, and souls of victims/survivors long after abusive episodes have ended. Additionally, Fraser also discusses the importance of hope, enlightened witnesses, income support, and educational opportunities for women who refuse to renounce love relationships altogether but are instead trying to foster relationships that are respectful as well as erotic.

First Love Lisa A. Phillips, 2025-02-04. A critical resource for parents to help their teens through the perplexing world of love and heartbreak. Today's young people are beginning their love lives in a time of rapidly changing ideas and ideals about identity, commitment, sexuality, and consent. For parents, the new realities of teenage relationships can be both mystifying and daunting. In *First Love: Guiding Teens through Relationships and Heartbreak*, Lisa A. Phillips chronicles the challenges today's adolescents face as they navigate crushes, dating, and breakups, and the challenges adults face as they strive to provide guidance and support. Phillips sheds light on how the relationships teens have today are different from their parents' generation, including their reliance on technology and social media, the rise of young people identifying as LGBTQ, high rates of depression and anxiety, and consent consciousness. She provides concrete strategies and insights from experts and teens themselves on ways parents and other adults can help young people cope with the timeless issues of love and heartbreak. Told from the perspective of a professor, mother, and award-winning journalist, *First Love* is a critical resource for parents, educators, mental health professionals, and others who want to understand the new realities of teen relationships and help teens become caring, self-aware, and thriving young adults.
