Philip A. Duey

Bel Canto Chopin Teaching The Art Of Singing Icon Series Volume 11:

Bel Canto Cecilia Jorgensen, 2013-11 Chopin tutored opera stars in the art of singing This new discovery overturns the traditional view that Chopin's teaching was limited to piano playing and that his pupils were mainly high society ladies in Paris The Bel Canto booklet was initially presented as a research paper at the International Musicological Conference organized by the Bibliotheque Polonaise a Paris and the Fryderyk Chopin Institute Warsaw on 18 September 2013 The career of three sopranos of international fame makes the point Pauline Garcia Viardot Henriette Nissen and Jenny Lind the Swedish Nightingale who all were pupils of Chopin The authors conclude that Chopin made an important contribution to the Bel Canto tradition as it evolved in parallel with the development of the piano and other instruments and that his method was rooted in the teaching principles of the famous Bel Canto tenor and voice pedagogue Manuel Garcia Sr Bel Canto in Its Golden Age - A Study of Its Teaching Concepts Philip A. Duey, 2011-03-23 Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork **The Final Secret to the Art of Singing. a Practical Guide to the Use of Overtones of Bel Canto in Vocal Rehabilitation and Training** Gary Sage, 2017-08-31 This book is meant to be used as a companion to the book Overtones of bel canto by Berton Coffin With this book and the accompanying audio series singers and teachers can learn to read and apply the methods of Berton Coffin This book is the result of 35 years of teaching Coffin's methods and answering questions on how to apply his methods from singers internationally The Audio series may be found on iTunes and Google play by typing Berton Coffin or Overtones of bel canto in the search field The Technics of Bel Canto G. B. Lamperti, 2015-06-02 Excerpt from The Technics of Bel Canto It appears superfluous and aimless to add a new singing method to those already before the public However during many years devoted to lesson giving I have observed far too often how little attention is paid nowadays to individualizing No two persons are exactly alike much less any two pupils In vocal teaching especially it does great mischief to try to make one shoe fit every foot I feel that those of my colleagues will agree with me who still possessing a thorough knowledge of the Bel Canto have often undergone similar experiences Yet the power of true vocal art even in this decadent period has lost but little of its effect on enthusiastic auditors This is proved by the ever renewed successes of Marcella Sembrich and others as contrasted with the great multitude of natural singers and dubious specialists with more or less voice It is this fact in particular which encourages me to gather together the fruits of my experience in this little volume for the benefit of my own pupils and other earnest vocal students Let it be added that this method has been tested by time and that I can trace it back to the Italian singing masters Gasparo Pacchierotti d 1821 Giovanni Battista Velluti d 1861 and others Should the technical information contained in these pages be found useful in wider circles and do its part toward attracting and preserving many a talent to the service of the divine art of song it would give the author the liveliest satisfaction About the Publisher Forgotten Books
