Organization, 2019-01-10 The Global status report on road safety 2018 launched by WHO in December 2018 highlights that the number of annual road traffic deaths has reached 1.35 million Road traffic injuries are now the leading killer of people aged 5-29 years The burden is disproportionately borne by pedestrians cyclists and motorcyclists in particular those living in developing countries The report suggests that the price paid for mobility is too high especially because proven measures exist Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives

Customary International Humanitarian Law Jean-Marie Henckaerts, Louise Doswald-Beck, 2005 In 1996 the International Committee of the Red Cross alongside a range of renowned experts embarked upon a major international study into current state practice in international humanitarian law in order to identify customary law in this area This book is the result of that study a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non international armed conflicts Given that important treaties in this area have not yet been universally ratified this is a publication of major importance carried out at the express request of the international community In so doing this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts

Finch, Marta N. Lukacovic, Maureen C. Minielli, Sergei A. Samoilenko, 2022-03-14 While the broader field of communication studies is gaining more global prominence this is an era when the underrepresented voices are fortunately becoming more recognized Communication Theory and Application in Post Socialist Contexts illustrates how Eurasia and Central and Eastern Europe the post socialist region represents a population of more than 400 million who embody a wide array of
