Belarus At A Crossroads In History Westview Series On The Post Soviet Republics:

Belarus Jan Zaprudnik, 1993-08-17 Belarus sometimes called the Western Gate of the Soviet Union has been placed by history between powerful states to the east and west Soldiers of Muscovy and Poland of Napoleon and Hitler and of Alexander I and Stalin have all left their mark Its territory has been laid claim to by both the Russians and the Poles and religious and political echoes of their challenges continue to be heard In this timely volume Jan Zaprudnik himself a native Belarusian paints a vivid picture of the complex past of Belarus formerly known as Belorussia paving the way for his analysis of the challenges facing the newly independent republic In recent years Belarus has been less visible to the world than the Baltic republics to the north or Ukraine to the south yet this multiethnic republic has undergone a significant demographic social cultural and political evolution since 1956 A proclamation of state sovereignty in July 1990 combined with the accelerated fragmentation of the Soviet Union to push Belarus along the uncertain road to independence a process that culminated with a declaration of full independence in August 1991 Although perestroika contributed to a dramatic rise in national consciousness among the people of Belarus the new nation state is notable for in its quest for interethnic coexistence and for peaceful solutions to the problems brought about by independence [The American Bibliography of Slavic and East European Studies](#) Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology [The American Bibliography of Slavic and East European Studies for 1994](#) Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs *Belarus* Jan Zaprudnik, 1993-08-16 The author examines Belarus complex past and analyzes the challenges facing the republic in the wake of a disintegrating Soviet Union [Lithuania](#) V. Stanley Vardys, 2018-02-19 This book explores Lithuania's pagan ancestry and epochal struggles with Germanic and Russian states and examines Lithuania's struggle with the legacy of Soviet rule as it strives to establish democracy and economic prosperity [Estonia](#) Rein Taagepera, 2018-02-06 After breaking free from the Bolsheviks in 1918 Estonia enjoyed independence until 1940 when the country was subsumed by the Soviet Union Not until 1991 was Estonia able to make its next successful bid for sovereignty In this book Rein Taagepera traces the evolution of Estonia from prehistory to the present when a radical turn of events in the former Soviet Union once again altered the destiny of this Baltic nation The author explores in depth the remarkable changes in Estonia since 1980 framing his analysis within the larger picture of the Soviet Union and its demise He also examines the issue of ethnic tensions between Estonians and Russian colonists and speculates on how unrest will affect the future of the country Throughout his analysis the author weaves in such key questions as Why did Sovietization fail How did Estonia's

quest for autonomy affect Soviet dissolution What role will the country play on the global stage What will Estonia's future hold

The Central Asian States Gregory W Gleason, 2018-10-08 This book traces the incorporation of Central Asia into the Soviet system the region's path of development under socialism and the vicissitudes of the economic and political collapse of socialism before considering the trajectories of the new states as they chart their independent futures

Europe Sven Tägil, 2001-01-01 This anthology gives an overview and an in depth description of Europe in historical terms providing explanation for the current period of dramatic development and integration process that has led to the increased strength of the European Union It also explores the simultaneous trend towards disintegration with an increased number of nationalist strivings of the traditional kind attempting to foresee the future structures by understanding the underlying processes through an analysis of the historical background

Siberia Victor L Mote, 2018-02-07 Known to most as a realm of exile and labor camps Siberia is also one of the world's wealthiest resource bases This harsh vast land constitutes nearly three quarters of Russia's territory yet after four centuries of Slavic migration and procreation it is home to a mere 32 million people In this comprehensive book Victor Mote illuminates the dichotomy between Siberia's rich treasurehouse of resources and its peripheral relationship to the rest of the world With this paradox in mind he traces the region's history from the Stone Age to the present emphasizing the unique blend of wit and will developed by inhabitants to survive one of the most brutal environments in the world a land that has been part colony part prison and part frontier Mote also explores the geography ethnography economics and politics of Siberia and its people providing a multidisciplinary perspective for scholars and general readers alike interested in Eurasia's forgotten quarter

Political Construction Sites Pal Kolsto, 2018-02-19 The dissolution of the Soviet Union has provided scholars with tremendously rich material for the study of comparative nation building Not since the decolonization of Africa in the 1960s have so many new states been established in one stroke in one region The post Soviet states moreover have all the necessary prerequisites for fruitful comparison a number of similarities but also significant differences in terms of size culture and recent history In order to survive in the long run modern states normally must have a population that possesses some sense of unity Its citizens must adhere to some common values and common allegiance towards the same state institutions and symbols This does not mean that all inhabitants must necessarily share the same culture but they should at least regard themselves as members of the same nation Strategies to foster this kind of common nationhood in a population are usually referred to as nation building After a decade of post Soviet nation building certain patterns are emerging and not always the most obvious ones Some states seem to manage well against high odds while others appear to be disintegrating or sinking slowly into oblivion To a remarkable degree the former Soviet republics have chosen different models for their nation building This book examines the preconditions for these endeavors the goals the state leaders are aiming at and the means they employ to reach them

Eventually, you will categorically discover a supplementary experience and exploit by spending more cash. nevertheless when? realize you say you will that you require to get those every needs taking into consideration having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will guide you to comprehend even more in relation to the globe, experience, some places, in imitation of history, amusement, and a lot more?

It is your completely own grow old to pretense reviewing habit. among guides you could enjoy now is **Belarus At A Crossroads In History Westview Series On The Post Soviet Republics** below.
