O'Connell, George Williams, 2016-12-05 Airlines are buffeted by fluctuating political and economic landscapes ever changing competition technology developments globalization increasing deregulation and evolving customer requirements As a consequence all sectors of the air transport industry are in a constant state of flux The principle aim of this book is to review current trends in the airline industry and its related suppliers thereby providing an insight into the forces that are changing its dynamics The factors that are reshaping the structure of the industry are examined with a view to identifying the key issues whose impact will be critical in the future The book features two very distinct sections The first contains short contributions from industry executives at CEO VP level from airlines aircraft engine manufacturers safety and navigational provider organisations who have set out their take of where the airline industry is heading This commercial input sets the scene for the book and provides the bridge to the second section which is composed of 18 chapters written by distinguished academic authors Each chapter presents a valuable insight into a specific area of the air transport industry including airlines airports cargo deregulation the environment navigation strategy information technology security and

tourism The shared objective of the authors is to describe and explain the core competencies that are determining the current shape of the industry and to examine the forces that will change its direction going forward The book is written in a management style and will appeal to all levels of personnel who work for airlines across the world It is also written for airport authorities aerospace manufacturers regulatory and government transportation agencies researchers and students of aviation management transport studies tourism and the wider air transport industry *Beyond Strategy* Michael Moesgaard Andersen, Flemming Poulsen, 2014-05-23 Why is it that some companies turn out to be more successful when doing the opposite of what is prescribed in many of the current books on management and strategy Interestingly many of the companies depicted as very successful companies in the standard literature end up not faring well over time probably because they somehow end up in a dangerous autopilot mode What this suggests is that the conventional literature cookbook isn't telling us the whole story Even if companies have temporarily developed from an ugly duckling to a white swan the popular recipes for success may be clipping such companies wings Conversely companies adhering to disruptive business models are seen to be more agile and to possess a higher degree of actionability Such next generation companies are labeled black swans They thrive because they are bold and embrace the great unknowns of tomorrow with open minds and eyes At the same time they are able to take advantage of incumbents fears risk aversion and blindness to what's coming *Beyond Strategy* delves into the inner workings of such black swans as Apple Arvind Emirates Huawei Natura Ryanair and Tata and addresses the rise and fall of Nokia The authors provide explosive evidence of black swan companies working against the norms to enter uncharted waters determined not to adhere to the best practice of others but rather to create a genuine next generation practice Next generation companies and their underlying philosophies are here to stay are you *Migration Impact Assessment* Peter Nijkamp, Jacques Poot, Mediha Sahin, 2012-01-01 This book examines migration in a rapidly globalizing economy where it disrupts such relatively stable patterns as the trip to work home school and shopping on the one hand and is itself transformed by continuously evolving information and telecommunications technology declining relative transport cost and immigration policy dynamics The perspective is global yet provides the reader with empirically based work representing Europe North America and Asia and international comparative studies of changing migration patterns impact on trade and culture Roger R Stough George Mason University US During the last few decades the world has experienced an unprecedented level of cross border migration While this has generated significant socio economic gains for host countries as well as sometimes for the countries of origin the costs and benefits involved are unevenly distributed Consequently growing global population mobility is a hotly debated topic both in the political arena and by the general public Amidst a plethora of facts opinions and emotions the assessment of migration impacts must be grounded in a solid scientific evidence base This analytical book outlines and applies a range of the scientific methods that are currently available in migration impact assessment MIA The book provides various North American and European case studies that quantify socio

economic consequences of migration for host societies and for immigrants themselves With up to date and broad coverage this detailed study will appeal to academic researchers in the social sciences policy analysts at national and international level as well as graduate students in economics and regional science **Aligning for Advantage** Thomas C.

Lawton,Jonathan P. Doh,Tazeeb Rajwani,2014-02-27 In today s multipolar world economy strategic alignment is a key determinant of competitive advantage Coca Cola Danone Diageo DuPont Lufthansa and Tata are some of the companies that strive for a pragmatic approach to balancing competitive strategies with political and social obligations Aligning for Advantage argues that to build and sustain corporate success companies must synchronize business objectives and market positions with political and regulatory activism and social and environmental engagement Moreover to be credible and realizable these external market and nonmarket strategies need to be equally attuned with corporate vision values and culture The book advances a managerial process and conceptual framework for aligning corporate strategy In some cases alignment may mean deep strategically embedded partnerships with governments NGOs or other stakeholders In others alignment may take the form of looser temporary collaborations with outside organizations No matter the approach the relationship between nonmarket and market strategies should be deliberate and genuine not accidental or artificial Truly aligned strategies should reconcile and modulate sometimes conflicting external demands in a way that is appropriate for the corporation s geographic and market positions In the end companies must leverage their overall nonmarket strategy as a source of competitive advantage
