Bridging Scholarship And Activism Reflections From The Frontlines Of Collaborative Research Transformations:

Bridging Scholarship and Activism Bernd Reiter,Ulrich Oslender,2015 This timely book brings together activist scholars from a range of disciplines to provide new insights into a growing trend in publicly engaged research and scholarship Bridging Scholarship and Activism creatively redefines what constitutes activism without limiting it to a narrow range of practices with an ultimate goal of creating a decolonized and democratized forum for scholar activists worldwide

The Dialectics of Citizenship Bernd Reiter,2013-05-01 What does it mean to be a citizen What impact does an active democracy have on its citizenry and why does it fail or succeed in fulfilling its promises Most modern democracies seem unable to deliver the goods that citizens expect many politicians seem to have given up on representing the wants and needs of those who elected them and are keener on representing themselves and their financial backers What will it take to bring democracy back to its original promise of rule by the people Bernd Reiter s timely analysis reaches back to ancient Greece and the Roman Republic in search of answers It examines the European medieval city republics revolutionary France and contemporary Brazil Portugal and Colombia Through an innovative exploration of country cases this study demonstrates that those who stand to lose something from true democracy tend to oppose it making the genealogy of citizenship concurrent with that of exclusion More often than not exclusion leads to racialization stigmatizing the excluded to justify their non membership Each case allows for different insights into the process of how citizenship is upheld and challenged Together the cases reveal how exclusive rights are constituted by contrasting members to non members who in that very process become racialized others The book provides an opportunity to understand the dynamics that weaken democracy so that they can be successfully addressed and overcome in the future

Challenging the Black Atlantic John T. Maddox IV,2020-10-16 The historical novels of Manuel Zapata Olivella and Ana Maria Gon alves map black journeys from Africa to the Americas in a way that challenges the Black Atlantic paradigm that has become synonymous with cosmopolitan African diaspora studies Unlike Paul Gilroy who coined the term and based it on W E B DuBois s double consciousness Zapata in *Chang el gran putas* 1983 creates an empowering mythology that reframes black resistance in Colombia Haiti Mexico Brazil and the United States In *Um defeito de cor* 2006 Gon alves imagines the survival strategies of a legendary woman said to be the mother of black abolitionist poet Lu s Gama and a conspirator in an African Muslim led revolt in Brazil s Black Rome These novels show differing visions of revolution black community femininity sexuality and captivity They skillfully reveal how events preceding the UNESCO Decade of Afro Descent 2015 2024 alter our understanding of Afro Latin America as it gains increased visibility Published by Bucknell University Press Distributed worldwide by Rutgers University Press
