Arte Para Niños Lego:

El arte de pensar para niños José Carlos Ruiz, 2020-12-30 Si queremos preparar a nuestros hijos frente a la superficialidad la frivolidad la distracción la ligereza que parecen haberse apoderado del plano social la alternativa pasa por ofrecerles una educación basada en el Pensamiento Crítico De lo contrario nuestros hijos vivirán sometidos a los nuevos modelos de esclavitud que el Sistema ha desarrollado Estamos viviendo momentos delicados para educar lo virtual se está apoderando del panorama real y si no entrenamos a nuestros hijos para que lo sepan distinguir estarán condenados a vivir dentro de una era de ficción Asistimos a un bombardeo constante de novedades educativas coaching mindfulness gamificación que prometen la panacea y las consultas de psicopedagogía están repletas de niños con infinidad de problemas a la par que nos invade una sensación de desconcierto a la hora de orientar su educación A lo largo de este libro analizaremos qué elementos componen el pensamiento crítico y cuáles son las principales dificultades con las que nos encontraremos a la hora de trabajarlo La metodología que aquí se recoge y que está contrastada por una diversidad de especialistas maestros de Educación Infantil Primaria Pedagogía Terapéutica Música Educación Física Filosofía es una metodología realista y sencilla que no requiere ningún grado de conocimiento previo Se necesitan personas preparadas para preguntar y para contestar cuestiones que no sean googleables así lo defendió el diario The Guardian al cuestionar el modelo educativo que prescindía del pensamiento crítico En esto debemos poner nuestro empeño a la hora de preparar a nuestros hijos de cara a desarrollar una personalidad equilibrada para un futuro incierto Tenemos en nuestras manos la posibilidad de educar a una generación que cambie el mundo para mejor De lo contrario será el mundo el que los cambie a ellos moldeándolos a su imagen y semejanza Se puede aprender a pensar bien pero no a pensar JOHN DEWEY **Cantos cuentos colombianos** Hans-Michael

Herzog, 2004 Cantos Cuentos Colombianos is the most comprehensive exhibition of contemporary Colombian art ever shown in Europe Ten widely recognized Colombian artists present a previously unknown world of images and experience worthy of international attention With great formal and substantive rigor the artists deal with their country and its troubled past and present through installation video photography objects performance and sound works The book includes extensive photo documentation of the artists studios as well as in depth interviews Four prominent Colombian thinkers of varying political persuasions discuss political social and cultural issues facing their country in enlightening and thought provoking essays
