away and thought that was over the top paranoid Besides how would I bring up the topic without telling them way more than they needed to hear Now that I know that 90% of childhood sexual abuse cases occur with someone the child already knows I don't assume that strangers are the only danger to my children and if I keep them from suspicious people they will be safe Predators are good at getting adults and children to trust them and they often target places where they gain access to lots of kids in authority based environments such as churches summer camps schools etc I write and train on human trafficking and over the years my research has brought me to what I believe is one of the most important and most overlooked aspects of trafficking childhood sexual abuse There is a huge huge overlap between victims of childhood abuse and victims of childhood and adult exploitation We might be able to shield the children we love from being targeted on the internet or in the mall but the fact that child abuse frequently happens by someone the child knows and often someone the entire family trusts is terrifying Because of this kids need to be taught when behavior crosses from appropriate and loving to inappropriate and abusive However like me many adults are wary of broaching the topic unsure of how to present helpful information without over educating or scaring children Others just don't know what to say I partly created this resource for myself I have two children and would much rather talk comfortably over a coloring page than sit them down at the table and have a training session that will make us all nervous I wanted something conservative parents would feel comfortable sharing with their children I wanted something I could offer parents teachers or advocates that would help victims talk about it and overcome taking away vulnerability to further exploitation in the future I can't express how much I want childhood sexual abuse to stop How important it is that children are empowered to know that when something is wrong they have options and what those options are To understand that sexual abuse is a crime and should be treated as such Right now statistics say 1 in every 4 women and 1 in every 6 men experienced some form of childhood sexual abuse I meet them often when I speak Many have still never told Wouldn't it be wonderful if through resources like I AM SAFE we could change that statistic for the next generation Find out more at www.kimberlyrae.com
