Anti Communism In Twentieth Century America A Critical History:

Anti-Communism in Twentieth-Century America Larry Ceplair, 2011-10-05 This compelling critical analysis of anti communism illustrates the variety of anti Communist styles and agendas thereby making a persuasive case that the threat of domestic communism in Cold War America was vastly overblown In the United States today communism is an ideology or political movement that barely registers in the consciousness of our nation Yet merely half a century ago communist was a buzzword that every citizen in our nation was aware of a term that connoted traitor and almost certainly a characterization that most Americans were afraid of Anti Communism in Twentieth Century America A Critical History provides a panoramic perspective of the types of anti communists in the United States between 1919 and the collapse of the Soviet Union It explains the causes and exceptional nature of anti communism in the United States and divides it into eight discrete categories This title then thoroughly examines the words and deeds of the various anti Communists in each of these categories during the three Red Scares in the past century The work concludes with an unapologetic assessment of domestic anti communism This book allows readers to more fully comprehend what the anti communists meant with their rhetoric and grasp their impact on the United States during the 20th century and beyond for example how anti communism has reappeared as anti terrorism

Christian Nationalism and Anticommunism in Twentieth-Century South Africa Ruhan Fourie, 2024-03-19 This book investigates Afrikaner anticommunism in South Africa in the twentieth century focusing on the Dutch Reformed Church DRC Following contemporary understandings of anticommunism as a fluid ideological stance it demonstrates that the deeply held anticommunist convictions of ordinary twentieth century Afrikaners is more than merely a natural result of global politics It examines how the DRC the institution with the widest reach and deepest influence in the everyday lives of Afrikaners played a significant role in perpetuating an anticommunist imagination amongst twentieth century Afrikaners The text explores the critical role the DRC fulfilled in legitimising overt opposition to and suppression of communism in all its perceived manifestations including black dissent whilst also creating an Afrikaner imagination in which the volk remained convinced of the ever present communist threat and of its own role as a bulwark against communism The church's moral standing in Afrikaner society also made it susceptible to right wing opportunists gaining mainstream political clout which this monograph also exposes and explains It ultimately concludes that anticommunism functioned as a vehicle for nationalist unity and uniformity a paradigm for Afrikaner identity and a legitimiser of the volk's perceptions of its imagined moral high ground throughout the twentieth century It will appeal to readers interested in anticommunism Christian nationalism right wing networks racism and apartheid culture and society

Woods, 2020-05-15 Freedom Incorporated demonstrates how anticommunist political projects were critical to the United States expanding imperial power in the age of decolonization and how anticommunism was essential to the growing global economy of imperial violence in the Cold War era In this broad historical account Colleen Woods demonstrates how in the mid twentieth century Philippines US policymakers and Filipino elites promoted the islands as a model colony In the wake of World War II as the decolonization movement strengthened those same political actors pivoted and after Philippine independence in 1946 lauded the archipelago as a successful postcolonial democracy Officials at Malaca ang Palace and the White House touted the 1946 signing of the liberating Treaty of Manila as a testament to the US commitment to the liberation of colonized people and celebrated it under the moniker of Philippine American Friendship Day Despite elite propaganda from the early 1930s to late 1950s radical movements in the Philippines highlighted US hegemony over the new Republic of the Philippines and in so doing threatened American efforts to separate the US from sordid histories of empire

imperialism and the colonial racial order Woods finds that in order to justify US intervention in an ostensibly independent Philippine nation anticommunist Filipinos and their American allies transformed local political struggles in the Philippines into sites of resistance against global communist revolution By linking political struggles over local resources like the Hukbalahap Rebellion in central Luzon to a war against communism American and Filipino anticommunists legitimized the use of violence as a means to capture and contain alternative forms of political economic and social organization Placing the post World War II history of anticommunism in the Philippines within a larger imperial framework in Freedom Incorporated Woods illustrates how American and Filipino intelligence agents military officials paramilitaries state bureaucrats academics and entrepreneurs mobilized anticommunist politics to contain challenges to elite rule in the Philippines *The Palgrave Handbook of Communist Women Activists around the World* Francisca de Haan,2023-01-23 This Handbook addresses the role of women in communism as a global social and political movement for the first time exploring their lives forms of activism political strategies and transnational networks Comprising twenty five chapters based on new and primary research the book presents the lives of self identified communist women from a truly international perspective and outlines their struggles against fascism and colonialism and for women s emancipation and national liberation By using the lens of transnational political biography the chapters capture the broader picture of these women s lives unpacking the links between the so called public and private the power structures and inequalities of their societies the formal networks and politics in which they were involved and the informal connections and friendships that supported their activism both at the national and international level Challenging androcentric and Eurocentric narratives about communism this Handbook reveals the active and significant roles of women in nineteenth and twentieth century communist movements and regimes and highlights the importance of communist women in shaping the agenda for women s rights worldwide Who is a True Christian? Benjamin Tromly, 2019-09-19 At the height of the Cold War in the 1950s the United States government unleashed covert operations intended to weaken the Soviet Union As part of these efforts the CIA committed to supporting Russian exiles populations uprooted either during World War Two or by the Russian Revolution decades before No one seemed better prepared to fight in the American secret war against communism than the uprooted Russians whom the CIA directed to carry out propaganda espionage and subversion operations from their home base in West Germany Yet the American engagement of Russian exiles had unpredictable outcomes Drawing on recently declassified and previously untapped sources *Cold War Exiles and the CIA* examines how the CIA s Russian operations became entangled with the internal struggles of Russia abroad and also the espionage wars of the superpowers in divided Germany What resulted was a transnational political sphere involving different groups of Russian exiles American and German anti communists and spies operating on both sides of the Iron Curtain Inadvertently CIA s patronage of Russian exiles forged a complex sub front in the wider Cold War demonstrating the ways in which the hostilities of the Cold War played out in ancillary conflicts involving proxies and non state actors
