Abortion Papers Inside The Abortion Mentality:

The Abortion Papers Bernard N. Nathanson, 1983

Latimer, 2012-01-01 A stunning compilation of the strongest pro choice and pro life arguments brought together for the first time in a single work that allows for meaningful comparisons and intelligent dialogue This gives the discerning reader an opportunity to see both sides comprehensively and move beyond emotionally charged mixed feelings to rational thought

The Fake and Deceptive Science Behind Roe V. Wade Thomas W. Hilgers, 2020-08-20 Our schools and healthcare institutions have abandoned the Hippocratic Oath and the Declaration of Geneva and replaced it with a policy of lethality This is a direct result of the Court's acceptance and promotion of archaic scientific reasoning Roe v Wade that at best would be considered pre medieval and clearly out of touch with scientific reality Fallout includes the expansion into fetal experimentation human cloning embryonic stem cell research infanticide and even physician assisted suicide programs The respect for life ethic has slowly been removed as the Supreme Court has so strongly supported the lethality becomes a way of life ethic Especially interesting is the lack of support for any positive solutions to these issues The recognition is that life at all stages in the womb is precious and able to make extraordinary contributions to our ability to love and to be loved to bring about peace and to be at peace to extract love in ways that only a very young and precious life is able to extract and to express love in ways that can be boundlessly meaningful As we move to reestablish the human right to live we must also move beyond lethality and install positive life affirming and meaningful solutions to real human problems God bless us all as we move in this direction

Pro-Life Answers to Pro-Choice Arguments Randy Alcorn, 2009-01-21 As politicians citizens and families continue the raging national debate on whether it's proper to end human life in the womb resources like Randy Alcorn's Pro-life Answers to Pro-choice Arguments have proven invaluable With over 75 000 copies in print this revised and updated guide offers timely information and inspiration from a sanctity of life perspective Real answers to real questions about abortion appear in logical and concise form The final chapter Fifty Ways to Help Unborn Babies and Their Mothers is worth the price of this book alone

Beyond Secularism and Jihad? Peter D. Beaulieu, 2012-07-13 Peter D Beaulieu examines the challenge posed by and to modernity and historic Islam as they encounter one another He compares the Western separation of Church and state with the unitary Islamic State and explores the proposed cultural and societal principles of the Second Vatican Council as potentially influencing long term events in both arenas Beaulieu's research is comprehensive and richly documented yet offers an accessible triangular inquiry into the mosque the manger and modernity By restoring a place at the table for Trinitarian Christianity alongside the engulfing monotheism of Islam and the alternative skepticism of Western rationalism this inquiry broadens the pallet of inter religious and intercultural contact points Beyond Secularism and Jihad provides balanced attention to the differences as well as the similarities between Christianity Islam and modernity An emerging theme is natural law which is universal and intrinsic to all mankind and not confined to competing

theologies Neglected in the West that it helped create natural law might contribute to the needed grammar for dialogue between the citizens in the West and the followers of Islam Toward A More Perfect Union Neil L. York,1988-12-06

Toward a More Perfect Union is the last of a three volume series examining the Constitution as it was drafted and ratified and the uses made of it over the past two hundred years Each volume includes essays first presented at conferences on the Bicentennial of the Constitution held at Brigham Young University in 1985 1986 and 1987 and several additional essays written especially for these anthologies *A Generation Abandoned* Peter D. Beaulieu,2017-04-26 *A Generation Abandoned* explores the disruptive cultural events especially of the past half century as these have undermined the confidence of the young in themselves and in civil society and finally in our place in the universe The overall theme is the contrast between this sense of abandonment and our inborn and neglected orientation toward personal worth and the common good the natural law Much of what is peddled as social evolution today is shown to be a throwback to darker times The analysis submits to a refreshingly conversational tone but also draws incisively from a very broad pallet of history literature theater theology and simplifying and illuminating anecdotes some of them first hand An early chapter outlines the perfect storm of the 1960s Later chapters expose the word games of the cultural elite the saga of the family through history and now its abrupt erosion and the difference between any meandering arc of history and a more grounded arc of relations our rationalized culture of death versus a flourishing human ecology **Life to the Full** Abby Johnson,Tyler Rowely,2023-05-05 Abortion is a scourge on our world perpetuated by a skewed understanding of love and freedom The result has been over 62 million lives lost in the United States alone since 1973 Each of these lives is an untold story It is time for them to speak In *Life to the Full* Abby Johnson and Tyler Rowley have collected twenty three harrowing personal accounts that demonstrate the evil of abortion and more crucially the power of life In the midst of the fight against the culture of death it is love mercy and miracles that serve as our oxygen keeping so many determined to bring abortion to an end The best method of winning hearts is the telling of stories true stories *Life to the Full* shares lived human experiences in order to breathe new life into the abortion fight and raise up a next generation of men and women committed to protecting the unborn This is the book I want supporters of legal abortion to read writes editor Abby Johnson Page after page will reveal the certainty that it is never okay to kill an innocent human being and that in order for our nation to know peace there must be peace in the womb This book will inspire those already committed to the cause of life and make abortion advocates second guess their convictions *Abortion Politics and the Negotiation of Public Meanings* Valerie Anne Hartouni,1987 *Defending Life* Francis J. Beckwith,2007-08-13 *Defending Life* is arguably the most comprehensive defense of the pro life position on abortion morally legally and politically that has ever been published in an academic monograph It offers a detailed and critical analysis of *Roe v Wade* and *Planned Parenthood v Casey* as well as arguments by those who defend a Rawlsian case for abortion choice such as J J Thomson The author defends the substance view of persons as the view with the most explanatory power The substance view entails that

the unborn is a subject of moral rights from conception While defending this view the author responds to the arguments of thinkers such as Boonin Dworkin Stretton Ford and Brody He also critiques Thomson s famous violinist argument and its revisions by Boonin and McDonagh Defending Life includes chapters critiquing arguments found in popular politics and the controversy over cloning and stem cell research
