Democracy's Discontent and Civic Learning Charles S.

White, 2018-09-01 Around the globe democracy is under assault For a dozen years global freedom has followed a downward slope according to Freedom House Once viewed as the world's model of freedom the United States has slipped in world ratings of democracy For a rising portion of the world's population faith in democracy is flagging At the same time a wave of nationalism and xenophobia is rising in the West questioning democracy's ability to meet the needs of its citizens The contributors to this volume examine democracy's discontent from a variety of perspectives What forces have produced the extreme partisanship and polarization roiling America's civic life and politics How has today's populist movement challenged democratic norms and institutions What role has social media played in democracy's discontent and its defense How do we overcome persistent racism in the face of emboldened White supremacist and anti immigrant agitation Across the pages of this book teachers teacher educators and education policy makers will recognize a common theme in responding to democracy's discontent the need to rebuild the nation's civic infrastructure Research on best practices in civic learning and engagement serve as a guide to transforming how we prepare citizens for democratic deliberation and civic action Creative and effective teaching materials and approaches await only the will to invest the needed time and support Repairing our civic infrastructure will help to restore confidence in our civic capabilities and trust in our ability to work together for the public good Without a serious recommitment to the civic mission of schools the nation will be ill prepared to defend against those within and beyond our borders who are intent on undermining democracy

Cybernetics and Systems Sergio Barile, Raul Espejo, Igor Perko, Marialuisa Saviano, 2018-12-07 Society is now facing challenges for which the traditional management toolbox is increasingly inadequate Well grounded theoretical frameworks such as systems thinking and cybernetics offer general level interpretation schemes and models that are capable of supporting understanding of complex phenomena and are not impacted by the passage of time This book serves the knowledge society to address the complexity of decision making and problem solving in the 21st century with contributions from systems and cybernetics A multi disciplinary approach has been adopted to support diversity and to develop inter and trans disciplinary knowledge within the shared thematic of problem solving and decision making in the 21st century Its conceptual thread is cyber systemic thinking and its realisation is supported by a wide network of scientists on the basis of a highly participative agenda The book provides a platform of knowledge sharing and conceptual frameworks developed with multi disciplinary perspectives which are useful to better understand the fast changing scenario and the complexity of problem solving in the present time

Routledge Handbook of International Organization Bob Reinalda, 2013-06-07 This Handbook brings together scholars whose essays discuss significant issues with regard to international organization as a process and international organizations as institutions Although the focus is on intergovernmental organizations IGOs non governmental organizations NGOs are discussed where

relevant The handbook is divided into six parts Documentation Data Sets and Sources International Secretariats as Bureaucracies Actors within International Bureaucracies Processes within International Bureaucracies Challenges to International Organizations and Expanding International Architectures The state of the art articles are meant to encourage current and future generations of scholars to enjoy working in and further exploiting the field and are also of great interest to practitioners of international organization and global governance **Political Automation** Eduardo Albrecht, 2025

Governments now routinely use AI based software to gather information about citizens and determine the level of privacy a person can enjoy how far they can travel what public benefits they may receive and what they can and cannot say publicly What input do citizens have in how these machines think In Political Automation Eduardo Albrecht explores this question in various domains including policing national security and international peacekeeping Drawing upon interviews with rights activists Albrecht examines popular attempts to interact with this novel form of algorithmic governance so far He then proposes the idea of a Third House a virtual chamber that legislates exclusively on AI in government decision making and is based on principles of direct democracy unlike existing upper and lower houses that are representative Digital citizens AI powered replicas of ourselves would act as our personal emissaries to this Third House An in depth look at how political automation impacts the lives of citizens this book addresses the challenges at the heart of automation in public policy decision making and offers a way forward *Postdigital Ecopedagogies* Petar Jandrić, Derek R. Ford, 2022-06-08 This book

conceptualizes ecopedagogies as forms of educational innovation and critique that emerge from negotiate debate produce resist and or overcome the shifting and expansive postdigital ecosystems of humans machines nonhuman animals objects stuff and other forms of matter Contemporary postdigital ecosystems are determined by a range of new bioinformational reconfigurations in areas including capitalism imperialism settler colonialism and ontological hierarchies more generally Postdigital ecopedagogies name a condition a question and a call for experimentation to link pedagogical research and practice to challenges of our moment They pose living breathing expanding contracting fluid and spatial conditions and questions of our non chronological present This book presents analyses of that present from a wide spectrum of disciplines including but not limited to education studies philosophy politics sociology arts and architecture **The Oxford Handbook**

of Public Choice, Volume 2 Roger D. Congleton, Bernard N. Grofman, Stefan Voigt, 2018-12-14 The Oxford Handbook of Public Choice provides a comprehensive overview of the research in economics political science law and sociology that has generated considerable insight into the politics of democratic and authoritarian systems as well as the influence of different institutional frameworks on incentives and outcomes The result is an improved understanding of public policy public finance industrial organization and macroeconomics as the combination of political and economic analysis shed light on how various interests compete both within a given rules of the games and at times to change the rules These volumes include analytical surveys syntheses and general overviews of the many subfields of public choice focusing on interesting important and at

times contentious issues Throughout the focus is on enhancing understanding how political and economic systems act and interact and how they might be improved Both volumes combine methodological analysis with substantive overviews of key topics This second volume examines constitutional political economy and also various applications including public policy international relations and the study of history as well as methodological and measurement issues Throughout both volumes important analytical concepts and tools are discussed including their application to substantive topics Readers will gain increased understanding of rational choice and its implications for collective action various explanations of voting including economic and expressive the role of taxation and finance in government dynamics how trust and persuasion influence political outcomes and how revolution coups and authoritarianism can be explained by the same set of analytical tools as enhance understanding of the various forms of democracy

Future Politics Jamie Susskind, 2018-09-12 *Future Politics* confronts one of the most important questions of our time how will digital technology transform politics and society The great political debate of the last century was about how much of our collective life should be determined by the state and what should be left to the market and civil society In the future the question will be how far our lives should be directed and controlled by powerful digital systems and on what terms Jamie Susskind argues that rapid and relentless innovation in a range of technologies from artificial intelligence to virtual reality will transform the way we live together Calling for a fundamental change in the way we think about politics he describes a world in which certain technologies and platforms and those who control them come to hold great power over us Some will gather data about our lives causing us to avoid conduct perceived as shameful sinful or wrong Others will filter our perception of the world choosing what we know shaping what we think affecting how we feel and guiding how we act Still others will force us to behave certain ways like self driving cars that refuse to drive over the speed limit Those who control these technologies usually big tech firms and the state will increasingly control us They will set the limits of our liberty decreeing what we may do and what is forbidden Their algorithms will resolve vital questions of social justice allocating social goods and sorting us into hierarchies of status and esteem They will decide the future of democracy causing it to flourish or decay A groundbreaking work of political analysis *Future Politics* challenges readers to rethink what it means to be free or equal what it means to have power or property what it means for a political system to be just or democratic and proposes ways in which we can and must regain control

Political Participation And Institutional Innovation: A Case Study Of Zhejiang Shengyong Chen, Dongsheng Zhong, Xingzhi Wu, Bingxuan Zhang, 2020-03-19 The participation of citizens in democratic politics serves as an indicator to measure a country's development its political modernization and political civilization To promote citizens political participation it is important to have them participate extensively in local governance and exercise their constitutional rights This book analyses Zhejiang's experience in democratic consultation hearing people's proposal solicitation system television and Internet political consultation official and citizen dialogue on government websites It studies how common people can
