Atlas Mammifres Bretagne Collectif:

La Bretagne François de Beaulieu, 2003 *Des dernières industries à trapèzes à l'affirmation du Néolithique en Bretagne occidentale (5500-3500 av. J.-C.)* Yvan Pailler, 2007 An in depth study of Neolithic material and sites from western France that answers many questions in terms of the neolithization of Europe and future developments in the British Isles This volume presents a new perspective on the neolithisation of the Armorican Massif based on an examination of lithic material and its spatial ordering The emphasis is on the detection of sites where raw material was extracted and of workshops where bangles and stone axeheads especially those of fibrolite were manufactured this allows the author to investigate the chaines operatoires involved and their spatial organisation The author places the conclusions of this research within a broader consideration of the evidence relating to the Mesolithic Neolithic transition process in Armorica and considers ways in which aspects of this process correlate with and others diverge from the cultural dynamics of the fifth millennium BC in the northern half of France The approach adopted here with its emphasis on the production and modes of diffusion of bangles and axeheads has the potential for more general application to the study of socially valorised artefacts elsewhere in Continental Europe Life and environment , 1996 **Atlas des oiseaux nicheurs de Normandie et des Iles anglo-normandes** Groupe ornithologique Normand, 1991 **Revue d'écologie** , 1982 Livres d'étrennes et publications périodiques , 1949 **Livres d'étrennes et publications periodiques pour l'année** , 1948 **Livres d'étrennes** , 1948 **The National Union Catalog, Pre-1956 Imprints** Library of Congress, American Library Association.
