Covering a wide selection of multimodal contexts that build on the fundamentals of translation, interpreting and their in-between hybrid forms of mediation, the handbook is divided into four parts. The opening part covers perspectives on policy and practices, whether contemporary or historical, and cases truly span the globe from Peru and Brazil over Belgium and Sierra Leone to Australia, Japan and Hong Kong. International developments require profound considerations about the professionalisation of access to language in times of crises, not least in contexts of humanitarian negotiation or conflict zone interpreting; these form the second part. The subsequent part deals with spheres of community in which language needs are positioned within frames of agency, positionality and trust, and the challenges that these face. The contributions build on cases where interpreters act as catalysts for translation needs in settings of humanitarian aid and beyond. The final part considers language strategies and solutions in crises. This handbook is the essential guide to translation and interpreting in conflict and crisis settings for advanced students and researchers of translation and interpreting studies and will be of wide interest in peace studies, political science and beyond. *Reverse Acronyms, Initialisms, & Abbreviations Dictionary*, 2007 *The National versus the Foreigner in South America* Diego Acosta, 2018-05-24 Since the turn of the century, South American governments and regional organisations have adopted the world's most open discourse on migration and citizenship. At a time when restrictive choices were becoming increasingly predominant around the world, South American policymakers presented their discourse as being both an innovative and exceptional new paradigm and part of a morally superior avant-garde path in policymaking. This book provides a critical examination of the South American legal framework through a historical and comparative analysis. Diego Acosta uses this analysis to assess whether the laws are truly innovative and exceptional as well as evaluating their feasibility, strengths and weaknesses. By analysing the legal construction of the national and the foreigner in ten South American countries during the last two centuries, he demonstrates how different citizenship and migration laws have functioned as well as showing why states have opted for certain regulation choices and the consequence of these choices for state and nation building in the continent. An invaluable insight for anyone interested in global migration and citizenship discussions.
