Trauma Care Manual Second Edition Ian Greaves, Keith Porter, Jeff Garner, 2008-11-28 The

Trauma Care Manual was first published in 2000 and was the first evidence based manual of best trauma practice. Now in its second edition it continues to offer clear and practical guidelines for the management of victims of major trauma reflecting current practice in the United Kingdom and Europe. The second edition benefits from an increase in illustrative material and is further enhanced by the addition of at least one case study for every topic in the book. Objectives and Summary boxes ensure a user friendly approach and are supplemented by key points highlighted throughout the text. New to the second edition are Global Perspectives boxes at the end of most of the chapters which highlight techniques and practices from around the world. Written by members of Trauma Care and invited experts, the Trauma Care Manual offers a nationally accepted set of standards for good practice which provide a benchmark for all those involved in the care of the trauma patient. It is a unique reference for all professionals involved in the care of victims of trauma and an invaluable addition to every Accident and Emergency Department.

Chest Pain John Albarran, Jenny Tagney, 2008-04-15

Chest Pain Advanced Assessment and Management promotes a systematic approach to the assessment and management of patients presenting with chest pain and related undifferentiated symptoms. Specifically it equips practitioners with the knowledge and clinical skills needed to effectively differentiate and respond to clinical presentations where the primary symptom for seeking healthcare advice involves chest pain. Introductory chapters in section one explore the principles of physical assessment, history taking and differential diagnosis to provide the framework for subsequent chapters which explore cardiac and non cardiac causes of chest pain. Section two examines the advanced assessment and overall management of patients with pain in the chest. A range of clinical conditions that trigger chest pain and other related symptoms are covered including angina, acute coronary syndromes, pericarditis and myocarditis, aortic dissection, pulmonary embolism, oesophago-gastric disorders, musculoskeletal causes, pulmonary and respiratory causes, coronary heart disease, myocardial infarction, chest pain caused by trauma or cardiac syndrome X, cocaine misuse and Herpes zoster.
