Accomplished Teaching Bess A. Jennings, Frank J. Orlando, Mary Ann Joseph, 2013-01-10 *Accomplished Teaching* Bess Jennings, Frank J. Orlando, 2014-06-03 **Accomplished Teaching** KENDALL HUNT PUB CO, 2010-04-29 *Educational Assessment in Latin America* Sue Swaffield, Sally M Thomas, 2019-07-23 This collection presents educational assessment research from Latin America adding to a relatively small but growing body of research considering educational assessment and evaluation issues in this large region The predominance of Chile reflects its early highly centralized education system and the fact that it adopted national testing before other Latin American countries It was also an early participant in international assessment programmes Other countries have followed the trend of implementing national testing and to a lesser extent participating in international surveys The complementary development of technical expertise in quantitative research methods has enabled extensive analysis of the large data sets generated by these testing and assessment programmes Taken together the evidence reported provides a means not only of reviewing educational quality issues in Latin America but also of facilitating comparisons that allow the context specificity of equivalent research conducted in western developed countries to be considered The chapters in this book were originally published as a special issue of *Assessment in Education Principles Policy and Practice* **Navigating the National Board Certification Process** Martha H. Hopkins, 2004-05-12 Filled with activities checklists and other practical tools this comprehensive resource leads teachers through each stage of the certification process **Certifiable** David Lustick, 2011 For anyone who was a candidate for National Board certification or might be a candidate in the future *Certifiable Teaching Learning and National Board Certification* is a must read book Dr Lustick NBCT 1998 2008 explores all aspects of the certification process in an accessible and meaningful style Lustick uses his own considerable experiences as a science teacher National Board candidate National Board assessor and educational researcher to provide evidence of NBPTS as an opportunity for professional growth What are teachers learning from National Board certification Dr Lustick interviewed more than 140 teachers from 42 states to find an answer In a report to congress the National Research Council described Dr Lustick s work as one of only two studies that objectively evaluated the impact of certification on teachers practices Whether a candidate was ultimately identified as accomplished or not David Lustick s research indicates that certification offers all candidates a chance to improve their practice This book provides educational stakeholders an important resource for understanding NBPTS as a means to improve teacher quality in an environment of high stakes testing **Assessing Teachers for Professional Certification** Lawrence Ingvarson, John Hattie, 2008-02-04 The National Board for Professional Teaching Standards NBPTS in the USA is the most ambitious and successful attempt by any country to establish a certification system for recognizing and rewarding teachers who reach high professional standards This book focuses on The National Board for Professional Teaching Standards NBPTS **Signed, Sealed, and Delivered** Sarah Eby-Ebersole, 1999 Details and more details charts graphs and statistics that
