Building Europe's Parliament Democratic Representation Beyond The Nation State:

Building Europe's Parliament Berthold Rittberger, 2005-03-24 Why have the national governments of EU member states successively endowed the European Parliament with supervisory budgetary and legislative powers over the past fifty years Building Europe's Parliament sheds new light on this pivotal issue and provides a major contribution to the study of the European Parliament Rittberger develops a theory of delegation to representative institutions in international politics which combines elements of democratic theory and different strands of institutionalist theory To test the plausibility of his theory Rittberger draws on extensive archival material and offers theory guided in depth case studies of three landmark decisions in the history of the European Parliament the creation of the Common Assembly of the ECSC in 1951 and the concomitant acquisition of supervisory powers vis vis the quasi executive High Authority the delegation of budgetary powers following the signing of the Treaty of Luxembourg in 1970 and the delegation of legislative powers resulting from the adoption of the Single European Act signed in 1986 This is followed by the charting of more recent key developments culminating in the adoption of the Constitutional Treaty in 2004 The book provides a welcome addition to the literature on institutional design by reflecting on the conditions under which governments opt for the creation and empowerment of parliamentary institutions in international politics It also makes a valuable contribution to the application of democratic theory to the study of the European Union by demonstrating that political elites shared the view that the new supranational polity which emerged from the debris of World War II suffered from democratic deficit since its inception thus disproving the claim that the lamented democratic deficit is a recent phenomenon Winner of the European Union Studies Association Prize for Best Dissertation 2002 2004

The Oxford Handbook of the European Union Erik Jones, Anand Menon, 2012-08-30 This is an authoritative one volume and independent treatment of the history functioning and nature of the European integration Written by a selection of leading scholars It covers the major institutions policies and events in the history of integration whilst also providing a guide to the major theoretical approaches that have been used to study it over time By bringing together such a distinguished cast covering such a wide array of themes the Handbook is intended as a one stop shop for all those interested in the European Union and its predecessors Written in an accessible style the volume is intended to shape the discipline of EU studies and to establish itself as the essential point of reference for all those interested in European integration both in universities and more broadly It represents a timely guide to an institution that is much discussed but often only imperfectly understood

The European Parliament in Times of EU Crisis Olivier Costa, 2018-11-24 This book assesses the many changes that have occurred within the European Parliament and in its external relations since the Lisbon treaty 2009 and the last European elections 2014 It is undoubtedly the institution that has evolved the most since the 1950s Despite the many crises experienced by European integration in the last years the Parliament is still undergoing important changes in its formal competences its influence on policy making its relations with other EU institutions its internal

organisation and its internal political dynamics Every contribution deals with the most recent aspects of these evolutions and addresses overlooked topics providing an overview of the current state of play which challenges the mainstream intergovernmental approach of the EU This project results from research conducted at the Department of European Political and Governance Studies of the College of Europe Individual research of several policy analysts of the European Parliamentary Research Service EPRS have contributed to this endeavour

The Institutions of the European Union
Dermot Hodson,Uwe Puetter,John Peterson,Sabine Saurugger,2022 In a time of disruption and rapid change the European Union s institutions have endured In *The Institutions of the European Union* a team of expert contributors and editors explain everything you need to know about the functions powers and composition of these important organizations as they contend with the changing dynamics of European integration It is the most comprehensive guide to understanding how the institutions of the EU provide political direction govern policies and integrate contrasting interests within the EU New to this Edition Fully updated to cover the institutional changes prompted by Brexit Covid 19 and many other issues facing the EU A new introductory chapter presents the idea of EU institutional politics and explores its different dimensions Explores the urgent challenges of creating more diverse and inclusive EU institutions New discussion questions help you reflect critically and engage with the content to take your learning further Professor Uwe Puetter of Europa Universit t Flensburg and Sabine Saurugger of Science Po Grenoble UGA join Dermot Hodson as editors Book jacket

The European Parliament in the Contested Union Edoardo Bressanelli,Nicola Chelotti,2020-06-09 *The European Parliament in the Contested Union* provides a systematic assessment of the real influence of the European Parliament EP in policy making Ten years after the coming into force of the Treaty of Lisbon which significantly empowered Europe s only directly elected institution the contributions collected in this volume analyse whether and under what conditions the EP has been able to use its new powers and shape decisions Going beyond formal or normative descriptions of the EP s powers this book provides an up to date and timely empirical assessment of the role of the EP in the European Union focusing on key cases such as the reforms of the EU s economic governance and asylum policy the Brexit negotiations and the budget The book challenges and qualifies the conventional view that the EP has become more influential after Lisbon It shows that the influence of the EP is conditional on the salience of the negotiated policy for the Member States When EU legislation touches upon core state powers as well as when national financial resources are at stake the role of the EP notwithstanding its formal powers is more constrained and its influence more limited This book provides fresh light on the impact of the EP and its role in a more contested and politicised European Union Bringing together an international team of top scholars in the field and analysing a wealth of new evidence *The European Parliament in the Contested Union* challenges conventional explanations on the role of the EP tracking down empirically its impact on key policies and processes It will be of great interest to scholars of the European Union European politics and policy making The chapters were originally published as a special issue of the *Journal of*

European Integration **Research Agendas in EU Studies** M. Egan, N. Nugent, W. Paterson, 2009-11-27 Leading scholars explore the complex questions arising from the ongoing transformation of Europe through the deepening and widening effects of European integration Based on authoritative analyses the book takes account of the many national transnational and international processes and contexts in which European integration has become embedded **Parliamentary Agency and Regional Integration in Europe and Beyond** Bruno Theodoro Luciano, 2021-08-17 This comparative book analyses the development of regional integration parliaments in three different continents of the world It assesses and compares the expansion and current stage of institutional development of three regional assemblies the European Parliament the Pan African Parliament and the Mercosur Parliament for Latin America Looking in particular at parliamentary agency it aims to answer why and to what extent these regional parliaments have developed differently in terms of their functions and legislative competences Drawing on new and original empirical data official documents and secondary literature the book focuses on the critical junctures in the trajectory of the three assemblies and argues that parliamentary agency has impacted the institutional development of the parliaments leading to diverse paths of regional parliamentarisation This book will be of key interest to scholars and students of global and regional governance comparative regionalism European Union studies legislative studies and more broadly to international relations history law political economy and international organisations

The European Parliament as an Accountability Forum Adina Akbik, 2022-02-03 An examination of executive actors accountability for EU economic decisions in the aftermath of the euro crisis Legislative Codecision in the European Union Anne Rasmussen, 2017-07-05 This volume takes stock of twenty years of practising and studying codecision in the European Union EU and examines the procedure's long term implications for the EU's institutions politics and policies The introduction of co legislation between the Council of Ministers and the European Parliament in 1993 raised the prospect of increased parliamentary involvement in EU decision making and promised a new era of more transparent inclusive and accountable policy making This collection draws together contributions from diverse theoretical and methodological perspectives in order to analyse the extent to which codecision has delivered the expected gains and to review the unexpected effects that have followed from its introduction such as the growing informalisation of EU decision making Using a combination of in depth qualitative case studies wider quantitative analyses practitioners insights and a review of the procedure's democratic legitimacy the contributions offer a holistic assessment of the effect of co decision on the political system of the EU This book was published as a special issue of the Journal of European Public Policy How the EU Really Works Olivier Costa, Nathalie Brack, 2016-04-29 The European Union is facing a profound crisis and is confronted with multiple challenges Over the last two decades it has experienced a series of dramatic changes to its powers its institutional design its constitutional framework and its borders At the same time the uneasy relationship between European citizens and elites has complicated both the reform and the function of the Union While the Lisbon treaty provided some answers to crucial questions it did not clarify the

nature of the EU which remains at the crossroads of federal and intergovernmental logic The current economic and financial crisis puts the EU s legitimacy further under pressure and creates the impression of a turning point This book provides a concise analysis of the EU and its dynamics by paying particular attention to its day to day operation It aims to help students and scholars understand its evolution its institutions its decision making and the interactions between the EU and various actors Avoiding abstract theorizing the authors propose an easy to read analysis of how the Union works while recognizing the complexity of the situation Throughout the book the key issues of European integration are addressed democratic deficit politicization the role of member states institutional crisis and citizen involvement
