

Chapter 4: Adding and Editing Assignments

This chapter describes in detail the different types of courses and assignments available from Aplia and shows you how to add and edit course assignments. After you have added your assignments, specified due dates, and made the assignments visible, your students will be able to view and complete them.

You may create your own assignments from scratch. Please see Chapter 5 for full instructions.

Course Types

The process of populating your course with Aplia assignments works differently depending on whether the course is textbook specific or textbook agnostic.

Textbook-Specific Courses

All assignments associated with a textbook-specific course are automatically included when the course is first created. The course also includes a digital edition of the textbook. For more information about what textbook-specific courses are offered, please contact Aplia Support.

Textbook-specific content is not available for textbook-agnostic courses. If your course is textbook agnostic and you want to access textbook-specific content, you must create a textbook-specific course.

Textbook-Agnostic Courses (Economics Only)

If you've chosen to build a textbook-agnostic course, it will be empty of assignments when you first create it. To populate it, you can select premade assignments from the **Assignment Library** and copy them into your course.

You can use the **Assignment Library** to do the following:

- Search all Aplia-created content (which is sorted by subject)
- Browse and select subjects that you are teaching
- Preview Aplia content for each subject
- Select and copy content into your course

Once a content item is in your course, you can modify it or simply assign it to your students as is.

You can find more information about the **Assignment Library** in the *Using the Assignment Library* section of this guide.

In addition to drawing from the **Assignment Library**, you can use Aplia to create your own assignments and problem sets. You can build the following types of questions:

- Multiple-choice questions
- True/false questions
- Numeric entry questions
- Essay questions
- Graphic questions
- Dragger questions
- Multipart questions
