Their statements at once personal and visionary offer a dazzling new insight into the political imagination of the global resistance movements. Global Revolt Amory Starr, 2005-05 Millions of people have already become active in rejecting corporate globalization and developing alternatives to it. The emergence of fresh perspectives on solidarity from local communities across the board can become the driving force behind a transformative movement of the people. Examples of small yet impactful acts of solidarity in the northern Mediterranean region illustrate how migration fuels social change leading to the alteration of established norms. These examples further challenge the dominant populist narrative of migration and integration into

mainstream society as the only viable solution The recent influx of migrant arrivals in Europe challenges established paradigms rekindling discussions on human rights and democracy regarding the treatment of people on the move and their experiences after arriving in a new location Despite dominant nation state narratives and inadequate institutional approaches to displacement narratives of solidarity among local communities have emerged transcending borders shedding light on the class race and gender based dimensions of migration In this book Hakan Shearer Demir examines how displacement and governance influence the meaning of what it means to be local as it is constantly reshaped by the diverse experiences cultural norms and the connections of newcomers to places people and stories in the northern Mediterranean region Through his Displacement Triggered Community Co Construction Framework CCF Shearer Demir presents an alternative approach that combines meta integration and municipalist principles while taking on patriarchy and hierarchies The CCF offers a potential pathway to establishing a community of equals that prioritizes meeting essential human needs and upholding human dignity It is a groundbreaking approach to one of the burning questions of our time Shearer Demir s book serves as a valuable source for professionals practitioners and academics working in the field of displacement integration and governance
