A Place Of Their Own Creating The Deaf Community In America:

A Place of Their Own John Vickrey Van Cleve, 1989 **The Deaf Community in America** Melvia M. Nomeland, Ronald E. Nomeland, 2011-12-22 The deaf community in the West has endured radical changes in the past centuries This work of history tracks the changes both in the education of and the social world of deaf people through the years Topics include attitudes toward the deaf in Europe and America and the evolution of communication and language Of particular interest is the way in which deafness has been increasingly humanized rather than medicalized or pathologized as it was in the past Successful contributions to the deaf and non deaf world by deaf individuals are also highlighted Instructors considering this book for use in a course may request an examination copy here **Inside Deaf Culture** Carol PADDEN, Tom Humphries, Carol Padden, 2009-06-30 Inside Deaf Culture relates deaf people s search for a voice of their own and their proud self discovery and self description as a flourishing culture Padden and Humphries show how the nineteenth century schools for the deaf with their denigration of sign language and their insistence on oralist teaching shaped the lives of deaf people for generations to come They describe how deaf culture and art thrived in mid twentieth century deaf clubs and deaf theatre and profile controversial contemporary technologies Cf Publisher s description *Introduction to American Deaf Culture* Thomas K. Holcomb, 2013-01-17 Introduction to American Deaf Culture provides a fresh perspective on what it means to be Deaf in contemporary hearing society The book offers an overview of Deaf art literature history and humor and touches on political social and cultural themes *Crippling the Archive* Jenifer L. Barclay, Stefanie Hunt-Kennedy, 2025-08-05 How do we explain the conspicuous absence of disability from the histories we write What forces and factors create this dynamic How can disability be everywhere and nowhere present and absent and obvious and overlooked in both the historical record and historians interpretations of the past Jenifer L Barclay and Stefanie Hunt Kennedy edit a collection of interdisciplinary essays that consider how and why physical sensory intellectual and psychological disabilities are underrepresented erased or distorted in the historical record The contributors draw on the methodology and practice of crippling to uncover disability in contested archives and explore ways to build inclusive archives accountable to and centered on disabled people and disability justice Throughout they show ableness informing the politics of the archive as a physical space a discriminatory record and a collection of silences An essential contribution to research methods and disability justice *Crippling the Archive* offers a blueprint for intersectional and interdisciplinary approaches that bridge disability studies history and archival studies *Be Opened! The Catholic Church and Deaf Culture* Lana Portolano, 2020-12-09 Be Opened The Catholic Church and Deaf Culture offers readers a people s history of deafness and sign language in the Catholic Church Paying ample attention to the vocation stories of deaf priests and pastoral workers Portolano traces the transformation of the Deaf Catholic community from passive recipients of mercy to an active language minority making contributions in today s globally diverse church Background chapters familiarize readers with early misunderstandings about deaf people in the church and in broader society along with

social and religious issues facing deaf people throughout history A series of connected narratives demonstrate the strong Catholic foundations of deaf education in sign language including sixteenth century monastic schools for deaf children and nineteenth century French education in sign language as a missionary endeavor The author explains how nineteenth century schools for deaf children especially those founded by orders of religious sisters established small communities of Deaf Catholics around the globe A series of portraits illustrates the work of pioneering missionaries in several different countries apostles to the Deaf who helped to establish and develop deaf culture in these communities through adult religious education and the sacraments in sign language In several chapters focused on the twentieth century the author describes key events that sparked a modern transformation in Deaf Catholic culture As linguists began to recognize sign languages as true human languages deaf people borrowed the practices of Civil Rights activists to gain equality both as citizens and as members of the church At the same time deaf people drew inspiration and cultural validation from key documents of Vatican II and leadership of the Deaf Catholic community began to come from the deaf community rather than to it through missionaries Many challenges remain but this book clearly presents Deaf Catholic culture as an important and highly visible embodiment of Catholic heritage

Deaf World Lois Bragg, 2001-02 Bragg English Gallaudet U has collected a selection of sources including political writings and personal memoirs covering topics such as eugenics speech and lip reading the right to work and the controversy over separation or integration This book offers a glimpse into an often overlooked but significant minority in American culture and one which many of the articles asserts is more like an internal colony than simply a minority group Annotation copyrighted by Book News Inc Portland OR

Non-Western Educational Traditions Timothy G. Reagan, 2004-09-22 This text provides a brief yet comprehensive overview of a number of non Western approaches to educational thought and practice Its premise is that understanding the ways that other people educate their children as well as what counts for them as education may help us think more clearly about some of our own assumptions and values and to become more open to alternative viewpoints about important educational matters The value of this informative mind opening text for preservice and in service teacher education courses is enhanced by Questions for Discussion and Reflection and Recommended Further Readings included in each chapter New in the Third Edition Chapter 2 Conceptualizing Culture I We and The Other is new to this edition It is a response to feedback about the problems inherent in our general discourse about culture and in addition provides an example of a culture that is near to us but nevertheless alien the culture of the Deaf World Chapter 9 which deals with Islam and traditional Muslim education has been substantially revised The subtitle of the Third Edition has been changed to Indigenous Approaches to Educational Thought and Practice reflecting not so much a change in the emphases found in the book but rather a recognition of the growing scholarly interest in indigenous peoples their languages cultures and histories Various points throughout the text have been expanded and clarified and chapters have been updated as needed

Learning to See Sherman Wilcox, Phyllis Perrin Wilcox, 1997 As more and more secondary

schools and colleges accept American Sign Language ASL as a legitimate choice for second language study Learning to See has become even more vital in guiding instructors on the best ways to teach ASL as a second language And now this groundbreaking book has been updated and revised to reflect the significant gains in recognition that deaf people and their native language ASL have achieved in recent years Learning to See lays solid groundwork for teaching and studying ASL by outlining the structure of this unique visual language Myths and misconceptions about ASL are laid to rest at the same time that the fascinating multifaceted elements of Deaf culture are described Students will be able to study ASL and gain a thorough understanding of the cultural background which will help them to grasp the language more easily An explanation of the linguistic basis of ASL follows leading into the specific and above all useful information on teaching techniques This practical manual systematically presents the steps necessary to design a curriculum for teaching ASL including the special features necessary for training interpreters The new Learning to See again takes its place at the forefront of texts on teaching ASL as a second language and it will prove to be indispensable to educators and administrators in this special discipline
