reflects the era's fascination with heredity and social engineering employing a didactic literary style that merges empirical data with persuasive rhetoric. The text critically engages with contemporary debates on race and improvement, often invoking statistics and case studies to support its arguments and situates itself amidst broader historical discussions on public health and social policy. La Reine Helen McKenzie Baker was a pivotal figure in early 20th-century social reform whose background in the burgeoning fields of sociology and genetics propelled her interest in eugenics.
