A Rumor Of Empathy Rewriting Empathy In The Context Of Philosophy:

A Rumor of Empathy L. Agosta, 2014-11-11 A rumor of empathy in vicarious receptivity understanding interpretation narrative and empathic intersubjectivity becomes the scandal of empathy in Lipps and Strachey Yet when all the philosophical arguments and categories are complete and all the hermeneutic circles spun out we are quite simply in the presence of another human being *Radical Empathy in the Context of Literature* Lou Agosta, 2025-03-25 In this book Lou Agosta explains using literary examples that readers require radical empathy to relate to process and overcome bad things happening to good people for example moral and physical trauma double binds soul murder and behavior in extreme situations A definition of radical empathy in the context of literature emerges Empathic distress occurs but one's commitment to the Other is such that one empathizes in the face of empathic distress One's empathic commitment to the survivor enables the survivor to recover her his humanness integrity and relatedness This work engages how the impact and cost of empathic distress affect the different aspects of empathic receptivity empathic understanding empathic interpretation and empathic responsiveness delivering a breakthrough and transformation in relating to the Other The intersection of literature and empathy is the place in which the literary artwork transfigures the face of trauma overcoming empathic distress and allowing radical empathy to enable the fragmented Other to recover her his integrity Additionally the book does not merely tell the reader about radical empathy in the context of the literary art work it delivers an experience of radical empathy in context in empathy's receptivity understanding interpretation and responsiveness **A Rumor of Empathy** Lou Agosta, 2015-06-05 Empathy is an essential component of the psychoanalyst's ability to listen and treat their patients It is key to the achievement of therapeutic understanding and change A Rumor of Empathy explores the psychodynamic resistances to empathy from the analyst themselves the patient from wider culture and seeks to explore those factors which represent resistance to empathic engagement and to show how these can be overcome in the psychoanalytic context Lou Agosta shows that classic interventions can themselves represent resistances to empathy such as the unexamined life over medication and the application of devaluing diagnostic labels to expressions of suffering Drawing on Freud Kohut Spence and other major thinkers Agosta explores how empathy is distinguished as a unified multidimensional clinical engagement encompassing receptivity understanding interpretation and narrative In this way he sets out a new way of understanding and using empathy in psychoanalytic theory and clinical practice When all the resistances have been engaged defences analyzed diagnostic categories applied prescriptions written and interpretive circles spun out in empathy one is quite simply in the presence of another human being Agosta depicts the unconscious forms of resistance and raises our understanding of the fears of merger that lead a therapist to take a step back from the experience of their patients using ideas such as altruistic surrender and compassion fatigue which are highlighted in a number of clinical vignettes Empathy itself is not self contained It is embedded in social and cultural values and Agosta highlights the mental health culture and its expectations of professional

organizations This outstanding text will be relevant to psychoanalysts psychotherapists who wish to make a contribution to reducing the suffering and emotional distress of their clients and also to trainees who are more vulnerable to the professional demands on their capacity for empathic listening Lou Agosta Ph D teaches empathy in systems and the history of psychology at the Illinois School of Professional Psychology at Argosy University He is the author of numerous articles on empathy in human relations aesthetics altruism and film He is a psychotherapist in private practice in Chicago USA See www.aRumorOfEmpathy.com

Empathy, Sociality, and Personhood Elisa Magrì, Dermot Moran, 2018-03-12 This book explores the phenomenological investigations of Edith Stein by critically contextualising her role within the phenomenological movement and assessing her accounts of empathy sociality and personhood Despite the growing interest that surrounds contemporary research on empathy Edith Stein's phenomenological investigations have been largely neglected due to a historical tradition that tends to consider her either as Husserl's assistant or as a martyr However in her phenomenological research Edith Stein pursued critically the relation between phenomenology and psychology focusing on the relation between affectivity subjectivity and personhood Alongside phenomenologists like Max Scheler Kurt Stavenhagen and Hedwig Conrad Martius Stein developed Husserl's method incorporating several original modifications that

are relevant for philosophy phenomenology and ethics Drawing on recent debates on empathy emotions and collective intentionality as well as on original inquiries and interpretations the collection articulates and develops new perspectives regarding Edith Stein s phenomenology The volume includes an appraisal of Stein s philosophical relation to Edmund Husserl and Max Scheler and develops further the concepts of empathy sociality and personhood These essays demonstrate the significance of Stein s phenomenology for contemporary research on intentionality emotions and ethics Gathering together contributions from young researchers and leading scholars in the fields of phenomenology social ontology and history of philosophy this collection provides original views and critical discussions that will be of interest also for social philosophers and moral psychologists

Socializing Minds Martin Lenz, 2022 How do minds depend on other minds One answer to this question is that they depend on another in the way they are that is their being and their states are explained in virtue of their relation to other minds What does this mean For a first approximation you might imagine that the mental states in your mind are incomplete A decision you make or a conclusion you draw for instance might not arise from your own thoughts but

from other people's minds. In that sense, one might assume that one's mind is only partly one's own mind. Since Spinoza opts for such an explanation, I will call his approach a metaphysical model of intersubjectivity.
