

A group of hikers, including children and adults, are walking away from the camera on a wooden boardwalk that leads into a dense, lush green forest. The boardwalk is made of wooden planks and has metal railings on both sides. The forest is filled with tall trees and thick foliage, creating a vibrant green backdrop. The lighting is soft, suggesting a shaded forest environment.

Lexicography in Action Monica Zhekov, 2018-01-14 The present research addresses a twofold problematic in the field of legal interpretation and translation within the United Kingdom First the study endeavours to establish linguistic equivalence between English and Romanian in the framework of UK Criminal Law Second it resolves the discontinuity between the legal systems in these two languages The objective is to examine specific lexical contextual difficulties encountered in interpretative professional practice and the availability of equivalent terminology in translation The structure and meaning of the non equivalent terms are analysed to establish equivalence by means of complex electronic queries using the collocation method The book provides a seven step model for resolving legal terminological non equivalence The model aims to empower interpreters across all languages to reach resolutions in their specific language pairs using the available resources in their professional context The study furthermore seeks to establish good practice

providing relevant applications for specific contexts It develops a model of a self building glossary in easy to follow steps and with a minimum prerequisite of lexicographic knowledge or advance computing skills Finally the book offers a concise glossary for the Romanian legal interpreters and practitioners in the UK
