

4. Programming:

The setting menu is entered with the **mode** key. The display items are selected with the **↑**, **↓**, and **↵** keys. If the mode key is pressed again the corresponding value for the display item is shown and can be altered with the **↑**, **↓**, and **↵** keys. If the display with the unit is not continued within two minutes the device automatically returns to the measuring mode without accepting the new values. To resume programming more quickly, you can switch back to the measuring mode (primary menu) from any item in the menu by holding the **↵** key pressed for five seconds. If the software lock has been activated, the values can be shown, but no changes made, i.e. when **Lock** is active **LOCK** appears in the display when an attempt is made to change values.

5. Maintenance / Malfunction:

The pressure switch is maintenance-free. Repairs and modifications of the switch must be done by the manufacturer exclusively.
