Accounting From the Outside (RLE Accounting) Tony Hopwood,2013-11-26 The 43 papers in this collection originally published from 1972 to 1987 delve into accounting observing and exploring its functioning They construct a basis for interrogating it in use and indeed they attempt to account for accounting The author seeks to understand accounting to appreciate what it is what it does and how it does it examining it from without rather than from within **Local Authority Accounting Methods Volume 1 (RLE Accounting)** Hugh Coombs,J. Edwards,2014-05-09 This book contains a collection of papers dealing with a range of controversial issues which exercised the minds of local authority officials from 1884 1908 The 28 items reproduced cover a wide range of matters They are presented chronologically because many of the papers deal with more than one topic but also because it provides a clearer guide to the development of views on numerous inter related issues These issues are still of interest and relevant today most of the papers deal with the need to improve the level of accountability to local electors something which has been the main thrust of UK government policy since 1979 Other papers focus on the need to address internal accounting problems such as the need for improved costing procedures to measure the performance of different activities *Accounting in Scotland (RLE Accounting)* Janet E. Pryce-Jones,Robert H.

Parker,2014-01-23 The first Scottish book on accounting was published in 1683 That book heralded a century during which Scotland established its reputation as a land of accountants a steady stream of books subsequently appeared from Scottish presses This bibliography contains over 330 location entries including 32 non UK libraries Periodical articles as well books are included **British Cost Accounting 1887-1952 (RLE Accounting)** Trevor Boyns,Malcolm Anderson,J. Edwards,2014-01-23 This anthology provides readers with a flavour of the development of cost accounting and emerging management accounting literature from The Costing Renaissance to 1952 Many of the issues which were prominent in the middle of the twentieth century are still pressing issues today and received important early treatments However a more balanced longitudinal coverage of the relevant material enables readers to trace the development of new attitudes to problems which had been recognized early on and to become aware of the fact that different issues tended to dominate the literature as time went by The selection bias has favoured material which was covered for the first time or in a new way
