Aniara Harry Martinson, 1999 The great Swedish writer Harry Martinson published his masterpiece Aniara during the height of the Cold War right after the Soviet Union announced that it had exploded the hydrogen bomb Aniara is the story of a luxurious space ship loaded with 8 000 evacuees fleeing an Earth made uninhabitable by Man s technological arrogance A malfunction knocks the craft off course taking these would be Mars colonists on an irreversible journey into deep space Aniara is a book of prophecy a panoramic view of humanity s possible fate It has been translated into seven languages and adapted into a popular avant garde opera This volume is the first complete English language version and received the prestigious American Scandinavian Foundation Award **Science Fiction in Translation** Ian Campbell, 2022-01-01

Science Fiction in Translation Perspectives on the Global Theory and Practice of Translation focuses on the process of translation and its implications The volume explores the translation of works of science fiction SF from one language to another and the translation of SF tropes terms and ideas of SF theory into cultures outside the West Providing a comprehensive examination of the state of translation into English the essays consider how representative the body of translated work of SF is from the source language culture It also considers the social political and economic choices in selecting a work to translate The book illustrates the dramatic growth both in SF production outside the Anglosphere the translation of works from other languages into English and the practice of translating English language SF into other languages Altogether the essays map the theory practice and business of SF translation around the world Other worlds and the narrative construction of otherness Esterino Adami, Francesca Bellino, Alessandro

Cordasco, 2021-12-28 The twenty first century has witnessed an explosion of speculative fiction in translation SFT Rachel Cordasco examines speculative fiction published in English translation since 1960 ranging from Soviet era fiction to the Arabic language dystopias that emerged

following the Iraq War Individual chapters on SFT from Korean Czech Finnish and eleven other source languages feature an introduction by an expert in the language s speculative fiction tradition and its present day output Cordasco then breaks down each chapter by subgenre including science fiction fantasy and horror to guide readers toward the kinds of works that most interest them Her discussion of available SFT stands alongside an analysis of how various subgenres emerged and developed in a given language She also examines the reasons a given subgenre has been translated into English An informative and one of a kind guide Out of This World offers readers and scholars alike a tour of speculative fiction s new globalized era

The Summer House Philip Teir,2018-07-12 The light greenery of the early summer is trembling around Erik and Julia as they shove their children into the car and start the drive towards the house by the sea on the west coast of Finland where they will spend the summer From the outside they are a happy young family looking forward to a long holiday together But look under the surface and their happiness shows signs of not lasting the summer On the eve of the holiday Erik lost his job but hasn t yet told the family And the arrival of Julia s childhood friend Marika along with her charismatic husband Chris the leader of a group of environmental activists that have given up hope for planet Earth and are returning to a primitive lifestyle deepens the hairline cracks that had so far remained invisible Around these people over the course of one summer Philip Teir weaves a finely tuned story about life choices and lies about childhood and adulthood How do we live if we know that the world is about to end

The Oxford Handbook of Global Modernisms Mark Wollaeger,Matt Eatough,2013-10 The Oxford Handbook of Global Modernisms expands the scope of modernism beyond its traditional focus on English and Irish literature to explore the contributions of artists from countries and regions like the US Cuba Spain the Balkans China Japan India Vietnam and Nigeria

Sad Planets Dominic Pettman,Eugene Thacker,2024-03-28 Everything is sad wrote the Ancient poets But is this sadness merely a human experience projected onto the world or is there a gloom attributable to the world itself Could the universe be forever weeping the tears of things In this series of meditations Dominic Pettman and Eugene Thacker explore some of the key negative affects both eternal and emergent associated with climate change environmental destruction and cosmic solitude In so doing they unearth something so obvious that it has gone largely unnoticed the question of how we

should feel about climate change Between the information gathered by planetary sensors and the simple act of breathing the air new unsettling moods are produced for which we currently lack an adequate language Should we feel grief over the loss of our planet Or is the strange feeling of witnessing mass extinction an indicator that the planet was never ours to begin with Sad Planets explores this relationship between our all too human melancholia and a more impersonal sorrow nestled in the heart of the cosmic elements Spanning a wide range of topics from the history of cosmology to the existential threat of climate change this book is a reckoning with the limits of human existence and comprehension As Pettman and Thacker observe never before have we known so much about the planet and the cosmos and yet never before have we felt so estranged from that same planet to say nothing of the stars beyond *History and Speculative Fiction* John L. Hennessey, 2023-12-14 This open access book demonstrates that despite different epistemological starting points history and speculative fiction perform similar work in making the strange familiar and making the familiar strange by taking their readers on journeys through space and time Excellent history like excellent speculative fiction should cause readers to reconsider crucial aspects of their society that they normally overlook or lead them to reflect on radically different forms of social organization Drawing on Gunl g Fur s postcolonial concept of concurrences and with contributions that explore diverse examples of speculative fiction and historical encounters using a variety of disciplinary approaches this volume provides new perspectives on colonialism ecological destruction the nature of humanity and how to envision a better future
