Andrew T. Raftery

Applied Basic Science For Basic Surgical Training 2e Mrcs Study Guides:

Applied Basic Science for Basic Surgical Training Andrew T. Raftery, 2008-01-01 For this Second Edition many of the chapters have been updated especially the chapters on immunology basic microbiology the endocrine and locomotor systems and the breast An attempt has been made throughout to indicate the clinical relevance of the facts and the reason for learning them There are several new contributors to the author team all of whom are experts in their field and many of them are or have been experienced examiners at the various UK Royal Colleges Although this book has been written to encompass the basic anatomy physiology and pathology required by the syllabus of the UK Royal Colleges and the Intercollegiate Surgical Curriculum Project it contains the necessary information required for equivalent international examinations and assessments

BOOK JACKET *Pathology for Surgeons in Training, 3Ed* Dugald Gardner, David E. F Tweedle, 2002-03-30 Previous editions of this book have proved indispensable for trainee surgeons preparing for the MRCS and AFRCS examinations This extensively revised new edition is presented in a compelling new style and in a larger format Beginning with a route map showing how to use this book the text offers concise accounts of the core topics in pathology required of surgeons in training There is particular emphasis on tissue pathology but full account is taken of relevant aspects of microbiology haematology immunology and clinical chemistry Tables of normal laboratory values are included Each major disorder is examined from the point of view of Cause Structure and Behaviour Genetics molecular biology and imaging receive balanced attention as do transfusion telepathology and audit The use of computers is outlined and suggestions given on access to Internet sources for learning purposes The needs of trainees in countries outside Europe have been considered carefully Illustrations have been selected to provide a clear pictorial account of complex points The inclusion of biographies of surgical pioneers adds interest and enables candidates to put their knowledge into context A special feature is a series of marginal signposts in the form Now Read that take candidates to interrelated topics quickly and easily There is extensive cross referencing and a comprehensive index

[Essential Revision Notes for Intercollegiate MRCS](#) Catherine Parchment Smith, 2006 Suitable for candidates preparing for the intercollegiate MRCS exam this title presents the essential facts in each subject area in note form with special attention given to areas that are often poorly understood

Basic Science for the MRCS E-Book Andrew T Raftery, Michael S. Delbridge, Helen E. Douglas, 2012-04-25 This book is a concise revision guide to the core basic sciences anatomy physiology and pathology which comprise the essential knowledge required by the trainee entering the specialty of surgery It has been written in a style to facilitate easy learning of the essential facts with indications of both their clinical relevance and importance This book concentrates on those topics which tend to be recurring examination themes for initial surgical training It will be an invaluable resource for the basic surgical trainee studying for the Intercollegiate MRCS examination as well as proving useful for those in higher surgical training and for the surgically inclined well motivated student The book covers in one volume all the essentials of the basic sciences anatomy physiology

and pathology to aid the candidate for the MRCS examination In covering the applied basic science the books explains the application and clinical relevance of the three sciences The text is written in an appropriate bullet point style to allow easy reading and rapid exam preparation The contents concentrate on the recurring common themes of the examination thus helping direct appropriate learning and focussing on the specific important areas of knowledge The book is illustrated with line drawings which are clearly annotated to aid learning In this Second Edition chapters have been updated and sections expanded to cover topics which are particularly relevant to examinations The microbiology chapter has been rewritten and the section on skin healing has also been extensively rewritten to include a section on burns skin grafting and the anatomy of flaps Each chapter has new OSCE scenario questions added to bring together the basic science and its clinical application in OSCE examinations *Bulletin of the Royal College of Surgeons of England* ,2004 **MCQ's for Applied Basic Science for Basic Surgical Training** Sam Jacob,R. C. Samuel,2000 An MCQ revision book and companion to Applied Basic Science for Basic Surgical Training edited by Andrew Raftery This MCQ book contains 250 questions each of standard five part format with detailed answers all corresponding to the chapters of the textbook and to the syllabus for the MRCS AFRCS All answers are cross referenced to the main textbook for further information **Basic Science for the MRCS E-Book** Michael S. Delbridge,Andrew T Raftery,Helen E. Douglas,2017-05-30 This is a concise revision guide to the core basic sciences for all surgical trainees preparing for Part A of the Intercollegiate MRCS examination Covering anatomy physiology and pathology it has been written in a style to facilitate easy learning of the essential facts with indications of both their clinical relevance and importance This book concentrates on those topics which tend to be recurring examination themes for initial surgical training It will be an invaluable resource for the basic surgical trainee as well as proving useful for those in higher surgical training and for the surgically inclined well motivated student The book covers in one volume all the essentials of the basic sciences anatomy physiology and pathology to aid the candidate for the MRCS examination In covering the applied basic science the books explains the application and clinical relevance of the three sciences The text is written in an appropriate bullet point style to allow easy reading rapid exam preparation The contents concentrate on the recurring common themes of the examination thus helping direct appropriate learning and focussing on the specific important areas of knowledge The book is illustrated with clear line drawings which are clearly annotated to aid learning Now available on StudentConsult with a downloadable ebook version included 250 new online single best answer questions in the format of the MRCS Part A examination will give the reader valuable experience in assessing their knowledge Each answer will refer back to text for further reading as required New and updated OSCE Clinical scenarios will be included at the end of every chapter **Basic Science for the MRCS** Andrew T. Raftery,Michael S. Delbridge,Helen E. Douglas,2012 A guide to the core basic sciences anatomy physiology and pathology which comprise the essential knowledge required by the trainee entering the specialty of surgery It focuses on those topics which tend to be recurring examination themes for initial surgical training Basic

Science for the MRCS Michael S. Delbridge, Wissam Al-Jundi, 2022-05 A concise revision guide to the core basic sciences for all surgical trainees preparing for Part A of the Intercollegiate MRCS examination Covering the essential facts for anatomy physiology and pathology with indications of both their clinical relevance and importance Focusing on the recurring examination themes for initial surgical training this title is designed for the basic surgical trainee as well as proving useful for those in higher surgical training and for the surgically inclined well motivated student Covers the essentials of the basic sciences anatomy physiology and pathology for the MRCS examination Explains the application and clinical relevance of the three sciences Bulleted text for easy reading and rapid exam preparation Focused on the common themes of the examination Clear annotated line drawings to aid learning 250 new online single best answer questions in the format of the MRCS Part A examination Each answer will refer back to text for further reading as required New OSCE Clinical scenarios at the end of every chapter
