Faithful Narratives Andrea Sterk, Nina Caputo, 2014-01-24 Historians of religion face complex interpretive issues when examining religious texts practices and experiences Faithful Narratives presents the work of twelve eminent scholars whose research has exemplified compelling strategies for negotiating the difficulties inherent in this increasingly important area of historical inquiry The chapters range chronologically from Late Antiquity to modern America and thematically from the spirituality of near eastern monks to women s agency in religion considering familiar religious communities alongside those on the margins and bringing a range of spiritual and religious practices into historical focus Focusing on Judaism Christianity and Islam the essays address matters central to the study of religion in history in particular texts and traditions of authority interreligious discourse and religious practice and experience Some examine mainstream communities and traditions others explore individuals who crossed religious or confessional boundaries and still others study the peripheries of what is considered orthodox religious tradition Encompassing a wide geographical as well as chronological scope Faithful Narratives illustrates the persistence of central themes and common analytical challenges for historians working in all periods
