Recess

Recess is good for children. According to the American Academy of Pediatrics, unstructured play keeps kids healthy. It is not easy for an energetic child to sit at a desk for six or more hours a day. Children need to run and play. The students in our school have gym class only once a week. Recess is their only chance to exercise. Research shows that students are better able to learn when they are allowed to exercise. They are less hungry after they have had a chance to burn off some energy.

Our children are allowed twenty minutes to eat lunch. They then go outside for thirty minutes of recess. For the first ten minutes of recess, our children play games and swing on swings. They exercise. This is obviously good for them. But after this, many students become bored. This is when they get into trouble. The people who are in charge of recess struggle during this time. They break up quarrels. They have to deal with students who try to climb on top of playground equipment instead of using it the right way.
